Overview

Fall Enrollment Overview

The Fall Enrollment component collects student enrollment counts by level of student, enrollment status, gender and race/ethnicity. In addition, first-time student retention rates and the student-to-faculty ratio are collected. Every other year data on residence of first-time undergraduates is required and in opposite years, enrollment by student age is required to be reported.

Institutions operating on a traditional academic year calendar (semester, trimester, quarter, or 4-1-4) report Fall enrollment as of the institution's official fall reporting date or October 15. Institutions operating on a calendar that differs by program or that enrolls students on a continuous basis (referred to as program reporters) report Fall enrollment as students enrolled any time during the period August 1 and October 31.

Data Reporting Reminders:

- Institutions must continue to report using the new race/ethnicity categories. Using the new race/ethnicity categories was first required in last year's Spring 2011 collection.
- Institutions must continue to use the new postbaccalaureate degree categories (eliminating the first-professional category and reclassifying those programs). All postbaccalaureate students are to be reported as graduate students for enrollment purposes, including any doctor's-professional practice students (formerly first-professional).
- Part B, Enrollment of students by age, is **required** this year.
- Part C, Residence of first-time degree/certificate-seeking undergraduates, is **optional** this year.

Part E - First-time Bachelor's Cohort Retention Rates (Full-time)

Retention Rates

Full-time, First-time Bachelor's Cohort from Fall 2010

Academic reporters determine the cohort and retention as of the institution's official fall reporting date or as of October 15. Program reporters determine the cohort with enrollment any time between August 1 and October 31, 2010 and retention based on August 1, 2011.

The retention rate is calculated by the system after clicking "Save" on the screen. Exclusions are subtracted from the original cohort and the resulting adjusted cohort is used for calculating the retention rate.

Retention Data Reporting Reminders:

- Include only **full-time, first-time bachelor's** students in this cohort.
- Determine the full-time cohort using Fall 2010 status (e.g. if a student was full-time in Fall 2010, report them in the full-time cohort regardless of their Fall 2011 status).
- If there are no students to report in the cohort, enter zero. Do not leave the field blank.
- Report in the exclusions box (line E2) the number of students from the cohort who left the institution for any of the following reasons: died or were totally and permanently disabled; to serve in the armed forces (including those called to active duty); to serve with a foreign aid service of the Federal Government (e.g. Peace Corps); or to serve on official church missions.

Retention Data Reporting Reminders:

- Include only **part-time, first-time bachelor's-seeking** students in this cohort.
- Determine part-time using Fall 2010 attendance status (e.g. if a student was part-time in Fall 2010, report them in the part-time cohort regardless of their Fall 2011 status).
- If there are no students to report in the cohort, enter zero. Do not leave the field blank.
- Report in the exclusions box (line E7) the number of students from the cohort who left the institution for any of the following reasons: died or were totally and permanently disabled; to serve in the armed forces (including those called to active duty); to serve with a foreign aid service of the Federal Government (e.g. Peace Corps); or to serve on official church missions.
