You may need to submit several documents to USF during the application process. Please review your admissions requirements (and program requirements, for graduate applicants). Find the items in the list below and upload them here. You may also need to upload documents for other offices based on your particular situation. These are listed below and can also be uploaded.

We prefer that you upload “pdf” type documents, however you may also use: “.doc”, “.docx”, or “.txt”. Other document types will not load.

You should upload the documents separately by type (e.g., resume, individual transcripts). However, multiple pages of the same document type (e.g., resume, FSU transcript) can be uploaded together in one file:

- 1) clicking on the item,
- 2) click “Browse” at the bottom of the page to find the document on your computer,
- 3) click on “upload” to attach that document (can have multiple pages),
- 4) continue steps 1-3 until you have uploaded all your required documents.

After you submit the application you can return to it and upload additional or updated items, as needed.

Please note that any transcripts or test scores uploaded with your application will be considered unofficial and, if admitted, you will be required to submit official documentation.
