1. CHARGES INCLUDE DELIVERY TO ORDERING INSTITUTION? Yes
2. DELIVERY TIME: see pricing information
3. MINIMUM SHIPMENT: none
4. ORDERING METHODS: We can work with your University accepting orders in a variety of ways. Many of the universities we currently work with prefer to email us an order request, fax a request or call us. We can work with you as to how you prefer it be done. We can also create a designated “Company Store” that has only the items you select on it. With this method, all products can be shown with your accepted logo, customized pricing and any other pertinent information you may require. There is no charge for this service with a minimum spend of $4000.00 per year. We manage the site including adding new items, running specials and all products can be ordered directly from this site. Complete details are requested including billing, shipping, in hands date needed and logo information can be uploaded to the order. Purchases can be made using a purchase card or a company purchase order. All orders will receive an order confirmation and an art proof for approval prior to production. The order confirmation states the anticipated delivery date, cost, and imprint information.

Our website http://www.americanadspec.com/ can also be used with this same method. With our site there are over 850,000 items with the only exception being we cannot display your preferred pricing here.

You will have a dedicated inside and outside account manager that will be able to answer any questions about your account. This includes order question, order status, billing or request for creative ideas for any need you may have.

We will be happy to come to your location at any time throughout the year and do a mini trade show which will display products, samples, new items and discuss with any of your buyers questions about upcoming projects they may have.

4. ORDERING METHOD: Our preferred method of ordering is through our eCommerce order management system. Below is a detailed outline for placing an order through our eCommerce platform.
   We are also positioned to accept email and fax orders. Please email orders to Theresa.muzzillo@proforma.com or fax to 504.617.7477

   We will set up the eCommerce platform to automatically apply the USF discount. For email and fax orders, the 10% discount will be manually reflected on order acknowledgements confirming the total cost and will also be applied to the final invoice.

   There are two distinct scenarios for placing an order through our eCommerce platform: Program Orders and Special Orders. Program Orders can be placed for fulfillment directly through the site with just a few simple steps (below). Special Orders can be facilitated through the site to a point, however a Proforma representative must place the order for fulfillment.

Program Order
The process for placing an order in the system is as follows:
1. User logs on to procurement site
2. User selects product category
3. Specifies quantity, pre-approved branding, color, size (if applicable)
4. Add to cart
5. Continue shopping
6. User selects Checkout
7. User selects shipping address
8. User submits order
9. An email notification is sent to the requestor, communicating order received, and notifying supply chain to proceed with production
10. Order goes direct to supply chain for manufacturing and/or fulfillment
11. Employee 1 pulls the order
12. Employee 2 verifies the order
13. Employee 3 verifies all 3 items are correct and packed together
14. UPS, FedEx, or USPS, pick up and deliver product to the customer
15. A second notification, complete with tracking number, is sent to the requestor when the order ships

If seeking a co-branded promotional product, our system allows users to upload a logo. In this case, the order request will be routed to the designated client manager for approval prior to going to the supply chain for manufacturing. Online proofing capabilities ensure smooth communication, eliminating the need to go back and forth.

Special Order
We can seamlessly configure the features of our technology to accommodate Special Orders. One feature we’ve incorporated into current sites is an “Idea Center” link that allows authorized users to search for trending ad specialties and apparel outside of the established store offering. Once they find something they’re interested in, they click the REQUEST INFO button so we can contact them with pricing and other options. Our account management team can assist with ideas, samples, mock ups or live production samples.

4. ORDERING METHODS; Response: Our account specific structure allows us to keep tight controls on our processes. USF will have a dedicated account team of Lindsey Mitchell (Account Manager) and Sara Carnes (Customer Service). The dedicated team will review every order for accuracy, artwork, pricing and licensing requirements before processing each order. Below you will find the ordering methods offered in our program.

Custom Website – We have created a custom website for USF that has all of the discounts reflected in pricing http://www.usfpromos.com/. When a USF customer places an on-line order it is received via email by our USF account team. The team will review the order to ensure the pricing and artwork is correct. The order will then be submitted through the iclc system for licensing approval. Once approved our account team will send a digital proof to the customer to approve. Once approved the order will be produced immediately and shipped to the customer. Our accounting team will then produce and send the invoice to USF Accounts Payables department.

Phone Orders – When a USF customer calls in our receptionist will transfer them to the USF Account Team to be helped. If the USF customer is looking for some promotional giveaway ideas, the USF team will create a PowerPoint presentation that will display product images along with USF discounted prices. If the USF customer requests samples we will provide the samples at no charge. Once the USF customer decides to move forward with an order the USF Team will send the customer a sales order detailing the total costs of the order. The sales order will reflect the discounted USF pricing. The order will then be submitted through the iclc system for licensing approval. Once approved our account team will send a digital proof to the customer to approve. Once approved the order will be produced immediately and shipped to the customer. Our accounting team will then produce and send the invoice to USF Accounts Payables department.

E-mailed & Faxed Orders - When a USF customer places an order via email or fax it is directed immediately to our USF account team. The team will review the order to ensure the pricing and artwork is correct. The USF Account Team will contact the customer and thank them for the order and let them know the order is being processed. The order will then be submitted through the iclc system for licensing approval. Once approved our account team will send a digital proof to the customer to approve. Once approved the order will be produced immediately and shipped to the customer. Our accounting team will then produce and send the invoice to USF Accounts Payables department.

All invoices will be reviewed by our accounting department to make sure all discounts are applied and the invoices are coded for reporting purposes.

CONTACT NAME: Chad Caputo
Email: chad@thesunshinegroup.net

1. Free Ground shipping on all items in catalog

2. DELIVERY TIME: 5-10 working days after proof approval.

3. MINIMUM ORDER: N/A

4. ORDERING METHODS:
Preferred method is with a PO# in writing via email, fax, mail or online ordering website
Email, fax, mail: A PO# is requested by The Sunshine Group and if USF requires a PO#
The Sunshine Group will reply to client asking for a PO# before ordering process is continued.
Phone call is acceptable and understood that sometimes a rush can’t follow typical protocol, but will
also require a PO# to move forward in a timely manner to meet the in-hands “rush” situation. If this
method takes place, an “in writing” method must follow within 2-3 days.

USF jobs will be identified with a PO# in The Sunshine Group’s ordering system.
