FINNISH-ING AT THE TOP: COMPARATIVE STUDENT ASSESSMENT IN FINLAND

Join us for a Study Abroad Information Session and Film Screening!

January 22, 2018 | 5-7 PM | TECO Hall

Interested in studying abroad this summer? Join faculty from the Educational Measurement and Research program to learn about this summer's education abroad experience in Helsinki, Finland! Get all of your questions answered about what to expect on the experience and how to apply for the program. We will also be screening the film "[The Finland Phenomenon](#)," a documentary that follows Harvard researcher Dr. Tony Wagner through Finland's extraordinary school system.

For more information, contact Dr. Leia Cain at LKCain@usf.edu

Study Comparative Student Assessment this Summer in Helsinki, Finland!

Program Dates: June 7 - June 21, 2018

Learn measurement and assessment practices from teachers in one of the world's leading countries in the Programme for International Student Assessment (PISA)! Aside from success in standardized international assessment, Finland also boasts high secondary graduation rates and low unemployment – something many attribute to their educational focus on practical skills and application of content. Students participating in this program can earn course credit towards one of the following courses:

- EDF 4430: Measurement for Teachers (3 credit hours)
- EDF 6938: Selected Topics: Comparative Research in Measurement (3 credit hours)
