Dmitry Goldgof Elected as AIMBE Fellow

Dr. Dmitry B. Goldgof is one of three USF faculty elected to the 2017 College of Fellows of the American Institute for Medical and Biological Engineering (AIMBE). Dmitry was elected for distinguished contributions to the fields of computer vision, pattern recognition and biomedical applications, particularly in biomedical image analysis.

The AIMBE College of Fellows is composed of the top two percent of medical and biological engineers in the country, and includes distinguished scientists and researchers, clinicians, engineering and medical school chairs, research directors, professors, innovators, and successful entrepreneurs. Fellows are regularly recognized for their substantial contributions in teaching, research, and innovation. AIMBE Fellows have been awarded the Presidential Medal of Science and the Presidential Medal of Technology and Innovation and many also are members of the National Academies of Sciences, Engineering, and Medicine. The new Fellows were nominated, reviewed, and elected by peers and members of the College of Fellows.

The formal induction ceremony for the AIMBE Class of 2017 will occur at AIMBE's meeting, March 19-20, 2017 in Washington, D.C. More information can be found at http://annualevent.aimbe.org/.
