Alumnus Jeremy Ramos receives College Outstanding Young Alumni Award

Jeremy Ramos (BSCpE, 1999) has received the College of Engineering Outstanding Young Alumni Award given to an engineer under the age of 40 who has distinguished themselves through professional practice and service to the college, engineering profession, and society at large. Jeremy received this award at the College of Engineering's third annual Engineering Honors event held the evening of April 8, 2017, at the Palma Ceia Golf and Country Club in Tampa.

Jeremy is the co-founder and vice president of Priatek LLC. Priatek produces and delivers prize promotions for advertisers. Through its patented platform Priatek provides advertisers with the ability to engage consumers on touchscreen kiosks and mobile devices. The company received the 2016 TiE Tampa Bay start-up of the year award. Earlier this year, Priatek announced a licensing agreement with Sony Pictures Entertainment granting Priatek worldwide rights to develop promotions based on "Wheel of Fortune" and "Jeopardy!" Priatek provides internships for engineering students and Jeremy serves as a mentor to many young engineers.
