The University of South Florida invites applications for Tenure-track faculty position in 

Chemical and Biomedical Engineering

The department of Chemical & Biomedical Engineering at the University of South Florida invites applications for tenure-track faculty, expected to commence in August 2017. An earned Ph.D. in Chemical Engineering or a closely related field and a clear potential for national prominence through externally funded research and teaching are required. Exceptional applicants for the rank of Associate/Full Professor will also be considered and must have demonstrated strong and existing capabilities in externally funded research, instruction, and mentoring of students. Applications from all areas of chemical engineering in the fields of energy and sustainability, advanced materials, and biotechnology/bioprocess engineering, are welcome. Applications from women and minority candidates are strongly encouraged.

Applicants must submit a detailed curriculum vitae and names of at least four professional references. In addition, the application should include a statement of their teaching and research plans. The cover letter indicating your interest in the specific rank should be addressed to Faculty Search Committee Chair, Chemical & Biomedical Engineering, University of South Florida, 4202 E. Fowler Ave, ENB 118, Tampa, Florida, 33620. Review of applications will begin on December 15, 2016 and will continue until filled.

We especially encourage applications from women, minorities and persons with disabilities. Applicants must submit their application electronically with supporting documentation as one file directly online to:  http://www.usf.edu/administrative-services/human-resources/careers/. (Applicants search Job Opening ID#11560).

Women and minorities are strongly encouraged to apply. To request disability accommodations in the application and interview process, please notify Brett Annette, EOL Coordinator at (813) 974-7736.
