PARKING

All USF faculty and staff electing to park on campus are required to have valid parking permits displayed in vehicles on campus at all times. Permits may be purchased through USF Tampa Campus Parking & Transportation Services by logging into the parking account that is created for you within 48 hours of activating your USF NetID. Many employees purchase “E” permits that are valid in any lot or space designated “E.” “E” lots are spread throughout campus and can be found near most buildings and offices. Some employees prefer to purchase “Y” permits, which offer a more cost effective Park-N-Ride option. “Y” permits allow for parking in lots 18 and 43 and use of the USF Bull Runner, a campus bus, to get to destinations on campus. Gold zone “GZ” permits are considered prime parking and are sold on a first come, first served basis.

Permits are available by the academic year or semester and are prorated depending on the date of purchase. For permits purchased by early August for the new academic year, certain employees may qualify to opt for payments made through payroll deductions.

To purchase your permit, view parking maps, and find more information on permit eligibility, cost, valid locations, restrictions, permit types or disabled parking information visit http://www.usf.edu/administrative-services/parking/

Service plays a critical role in everything we do at the University of South Florida. All who work at this university are committed to providing quality service in all we do. We commit to serve others and place the needs of others before our own personal needs. Our philosophy of service pertains to students and fellow workers alike. We hold as self-evident that a service does not exist until it is offered. We appreciate that our student body and workforce are diverse and that our diversity gives us strength and adds value to our university. We appreciate the powerful nature of written and spoken communication and understand that how we communicate with students and one another has a direct impact on the quality of the individual experience at USF. We also realize that each of us serves as an ambassador of this institution and that our attitude and actions reflect on us as individuals, and on USF. We are committed to support the University’s strategic plan by providing the very best service we can.

As such, the University of South Florida is dedicated to the following goals and ideals:

- We will treat students, visitors and fellow workers with dignity and respect and assist them in a caring and helpful manner.
- We will act in a manner that students, visitors and fellow workers see us as a source of accurate and helpful information.
- We will continually review our policies and procedures in an effort to simplify them and improve service.
- We will continue to improve and update our knowledge, skills and abilities in order to best serve our students.
- We will derive pride and satisfaction from solving problems, not passing them on, as we seek solutions not blame.

In support of these goals and ideals, the following standards of service are established:

1. We will acknowledge an inquiry as quickly as possible within the service levels established for individual units. The goal is to acknowledge internal responses within one business day to currently enrolled students who inquire about an issue. We will respond within three business days on inquiries from prospective students.
2. We will make the point of conflict the point of resolution. If a student brings an issue to a staff member, that staff member will assist the student with arriving at a resolution.
3. We will listen to our students and fellow workers and our communications will be clear and understandable.
4. We will identify opportunities to simplify systems and processes in ways that benefit both internal and external stakeholders.
5. We will give the student the benefit of the doubt.
6. We will set the conditions so that students and visitors who interact with any University departments feel welcome, relaxed and comfortable.

On June 23, 2016, the Florida Board of Governors formally designated USF as the state’s first “emerging preeminent state research university. The new designation marks a significant milestone for USF.”

WHAT DOES THIS MEAN?

USF is on track to become officially designated as a “preeminent university.” The stage before being declared fully “preeminent” is called “emerging preeminent.” This designation comes with $5 million in additional funding for research this year, placing USF in a elite status within the Florida University System.

The designation supports USF’s vision of attaining membership in the Association of American Universities (AAU).

The preeminent designation is based on 12 metrics that include areas of rankings, academic memberships and research expenditures.

The designation of preeminence will propel other areas of the university such as student and faculty recruitment, community partnerships and external funding. This will further support innovation and economic development state-wide.

Preeminent University:
Established by Governor Rick Scott to allow designated universities to be eligible for additional funding to become nationally prominent.
