

## **Access to Annual Security and Fire Safety Reports**

The issue of campus safety is a vital concern to our prospective and current students and employees. To assist in this regard and to comply with The Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act (the “Clery Act”), each separately-accredited institution or campus within the USF System publishes an Annual Security and Fire Safety Report (ASR). These reports contain valuable information about USF policies and procedures with respect to campus security, fire safety, emergency response and evacuation procedures, sexual assault, missing student notification, and other matters. In addition, our ASRs provide statistics of reported crimes for the previous three calendar years which occurred on campus; on public property within or immediately adjacent to campus; and in or on noncampus buildings or property our institution owns or controls. Links to the most recent version of the ASR relevant for your institution or campus of interest, as well as contact information for directing questions or requesting paper copies, are provided below:
