

Award Reconciliation Guide

Goal: To provide USF research administrators with standardized business process steps for award reconciliation.

Purpose: The USF Research Roles and Responsibilities require Department Research Administrators (Administrative Staff) to provide monthly financial reports to Principal Investigators and assist in monitoring encumbrances and expenditures.

About Reconciliation: Reconciliation is simply a comparison of two sets of information as of the same point in time.

- Identify the differences between what actually did post in Finance Mart vs. what you expected to post in Finance Mart.
- Compare your departmental records to Finance Mart.

Why Reconcile?

- Good internal controls and sound business practices necessitate the reconciliation of funds by business staff.
- USF needs assurance that all assets are safeguarded and used to the best benefit of the university.
- Research Administrators are obligated to be good stewards of the funds they administer.

Specifically:

- To protect your budget and cash.
- To ensure only valid, authorized purchases are made meeting university, state or federal requirements.
- To ensure accuracy and timeliness of transactions.
 - Were correct chartfields used?
 - Have any payments been duplicated?
 - Was all cash correctly recorded?
 - Have necessary corrections been made/posted?

About the Rapid Reconciliation Tool

The [Rapid Reconciliation](#) tool serves two important functions:

1. Track expenses for required monthly reconciliations to the USF Finance Mart (green sections)
2. Project estimated expenses, i.e. "burn rate" (yellow sections)

The workbook contains five worksheets; Summary, Salary, Expense, Equipment, and F&A. Totals from the Salary, Expense, Equipment, and F&A worksheets are displayed on the Summary sheet.

The tool contains a macro-enabled print button on the Summary sheet. Clicking the Print button prints the entire workbook to the designated default printer (macros must be enabled to use this function).

Business Process:

Step 1: Upon receipt of Research Financial Management's (RFM's) award setup email ([sample email](#)), run the RSA Summary report via the Finance Mart ([demo](#)).

Note: The Finance Mart is **USF's official reporting tool** for financial reconciliations.

Direct access to Finance Mart, official USF ledgers, click:

<https://eusf.admin.usf.edu/Topics/Applications/Queryland/Pages/default.aspx> (or go through [eUSF Portal](#)).

Finance Mart system related questions? Contact Mark Devore (813/974-2286).

Enter the Project ID (the Project ID is listed in the Sponsored Research Post-Award email).

Select Other Options

Sort By: = ▼ Chartfield ▼

☐ Check to save the Report Parameters

Reset View Report

**Enter the Project ID.
Do not enter dashes in the
Project field.**

Note: For projects with cost share, the Fund code may be entered for a differentiated view. Entering only the Project ID, will return both project and cost share information. Entering Project and Fund will limit the results to return only project information associated with the specified fund code.

When reviewing award setup, it is recommended to run the RSA Summary report by Project only to ensure that information has been properly distributed across funds codes, as applicable.

Step 2: Compare the RSA Summary report totals to the project's [GBR](#), [Underwrite](#), or [Subaccount Establishment/Project Transfer](#) form to confirm project budget totals and chartfield values. If any discrepancies are found between the form and the RSA Summary report, contact your Sponsored Research Post-Award, [Grants Financial Administrator](#) ([GFA](#)) as identified in the Sponsored Research Post-Award email notification. If the discrepancy is solely chartfield related, please contact your [Sponsored Research Administrator](#) in Sponsored Research.

Step 3: Using the [Rapid Reconciliation](#) tool, enter the Summary page header information (Project Name, PI/Co-PI name, Project ID, Chartfields, and Award Dates). This information will carry over to the remaining worksheet headers.

Project Name:	Targeted Gene Therapy by SNAP				
PI/Co-PI:	Mohapatra, Shyam				
Project ID:	6123108600				
Chartfields:	OPER UNIT	FUND	DEPT ID	PRODUCT ID	INITIATIVE
	HSC	21000	610802	000000	0000000
Award Dates:	Begin Date:	1-Jan-10	End Date:	31-Dec-11	

Note: Some colleges/departments have similar tools developed for award reconciliation – the [Rapid Reconciliation](#) tool is provided as an option.

Step 4: In the RSA Summary Grand Total as of: field, enter the date and the amount shown as the Grand Total, RSA, on the RSA Summary report.

RSA Summary Grand Total as of:	01/31/10	\$374,053.00

Grand Totals		374,053.00				374,053.00

Once all the **confirmed** budget totals from the RSA Summary report are entered into the corresponding worksheets, the workbook is ready for project expense tracking!

Step 6: Create a folder for storing backup documentation for project related expenses.

Folder name format: PI Name – Project ID

Note: It is recommended that the folder be housed in a SharePoint/drive that is available as "Read Only" to the PI/Accountable Officer for easy access and review.

Step 7: Enter all transactions: p-card transactions, travel authorization reports, travel expense reports, interdepartmental charges, participant payments, requisitions, purchase orders (including subcontracts), budget transfers, payroll and non-payroll expenditure transfers, etc. into the corresponding fields on the designated worksheets by Budget level Account (Tab titles: Summary, Salary, Expense, Equipment, and F&A) when backup received or initiated.

Note: Amounts should be entered in the PENDING column until confirmed as encumbrances or posted expense (ACTUAL_AMT). Examples SOURCE_DOC#s include: TA#, Requisition#, ER#, PO#, P-Card Transaction#, etc.

After the source document is entered into the worksheet, it is recommended that the document be marked to indicate that the entry was made (perhaps have a stamp for this purpose). The number listed in the # column can be entered on the source document as a cross reference.

PAGE TOTALS					96,000.00	1,345.46	0.00	0.00	96,000.00	

Note: Salary transactions can either be logged into the spreadsheet one-by-one as appointment papers are received or the biweekly totals can be entered from the Payroll ledger query once the totals have been confirmed to match the source documents (appointment forms).

Step 8: Upon University Controller's Office (UCO) email notification of official month close, rerun the RSA Summary report via the Finance Mart ([demo](#)). Be sure to check both the "Check to Include Starting Balance" and the "Check to enable period selection" boxes. Select the most recent "closed" month, as indicated in the UCO email notification, from both the Fiscal Period Start and End date drop down boxes.

Ensure that all personnel that should be assigned to the project have salary distributions to the referenced Project ID for the selected pay periods (via the GEMS Combo Codes).

Note: For projects with cost share, enter both the Proj/Grt and Fund to ensure only project information associated with the specified chartfield information is displayed.

Compare the query totals to the totals reflected on the RSA Summary report, salary related sections (Wages and Fringe), and the salary transactions entered on the Salary tab. Salary expense details can be viewed by clicking the Payroll Detail link on the left hand menu.

Note: Worker's Compensation charges are posted monthly and reported on the RSA Summary once the month has closed.

Salary expense details can be viewed by clicking the Payroll Detail link on the left hand menu.

Note: Monthly Worker's Compensation expense totals from the RSA Summary report must be entered into the corresponding fields in the Salary tab to ensure accurate balance totals.

RSA Summary Grand Total as of:	02/28/10	\$359,523.47
Worksheet Balance as of:	03/19/10	\$359,523
Variance:	03/19/10	\$0
Reconciled Balance as of:	02/28/10	\$359,523
Projected RSA Balance as of:	12/31/11	\$188,057
Comments:		

Review prior month's reconciliation for variances in a timely manner (refer to Research CCHIP #001, [Timeline for Processing Cost Transfers on Sponsored Projects](#)). Investigate and resolve any discrepancies between the two lists. Enter any unposted transactions into the current month's reconciliation as "Pending." Include comments as appropriate.

Step 12: For Expense tab reconciliation, review the RSA Summary report expense details by clicking the budget level Account details link for each budget category sub section listed (all sections between the Wages and Fringe section/s and the Equipment or Facility and Admin section, as applicable).

Note: To view all expense related details (rather than clicking on each Budget level Account) click the Expense Detail link on the left hand menu. The details can be downloaded to Excel and subtotaled by BUD ACCT.

To view all expense related details, click the Expense Detail link on the left hand menu.

\$44,554.54
\$48,500.00
\$93,054.54

Compare the RSA Summary report expense details to the transactions entered on the Expense tab as they appear in the closed period month.

Once an expense appears in the RSA Summary report as either an ENCUMBRANCE or ACTUAL_AMT, enter that amount into the corresponding column on a new row using the POSTED DATE displayed in the Details Report; on that same row, enter the amount as a negative adjustment in the PENDING column.

Review prior month's reconciliation for variances in a timely manner (refer to Research CCHIP #001, [Timeline for Processing Cost Transfers on Sponsored Projects](#)). Investigate and resolve any discrepancies between the two lists. Enter any unposted transactions into the current month's reconciliation as "Pending." Include comments as appropriate.

Step 13: For Equipment tab reconciliation, review the RSA Summary report Equipment expense details by clicking the budget level Account details link for the Equipment budget category section. Compare the RSA Summary report expense details to the transactions entered on the Equipment tab. Review prior month's reconciliation for variances in a timely manner (refer to Research CCHIP #001, [Timeline for Processing Cost Transfers on Sponsored Projects](#)). Investigate and resolve any discrepancies between the two lists. Enter any unposted transactions into the current month's reconciliation as "Pending." Include comments as appropriate.

Note: The project used in this example does not include equipment budget/expenses. Follow a similar process to that detailed in Step 12 to reconcile equipment related expenses.

Step 14: For F&A tab reconciliation, review the RSA Summary report F&A expense details by clicking the Budget level Account details link for the Faculty and Admin section.

Variance:	03/19/10	\$0
Reconciled Balance as of:	02/28/10	\$359,523
Projected RSA Balance as of:	12/31/11	\$188,057

Comments:

Remaining Spending Authority (RSA) Breakdown: Required Monthly Reconciliation Data (displays totals from the corresponding worksheets)					Estimated - Projected Expenses		
Budget Level (ACCOUNT)	BUDGET_AMT	Posted ENCUMBRANCE	Posted Expenses (ACTUAL_AMT)	Budget Balance (RSA)	Projected Expenses to Award End Date - based on average of posted actuals "Burn Rate" (PROJECTED_AMT)	PENDING	Estimated Budget Balance at Award End Date (PROJECTED_RSA)
Salary	244,048.00	-	10,385.52	233,662.48	120,149.72	-	113,512.76
Expense	96,000.00	1,345.46	1,600.00	93,054.54	18,510.34	-	74,544.20
Equipment	-	-	-	-	-	-	-
F&A	34,005.00	-	1,198.55	32,806.45	32,806.45	-	-
Total:	374,053.00	1,345.46	13,184.07	359,523.47	171,466.52	-	188,056.95

Grand Totals	374,053.00	1,345.46	13,184.07	359,523.47
---------------------	-------------------	-----------------	------------------	-------------------

Note: The Estimated – Projected Expenses, a.k.a. "Burn Rate" section displayed to the right of the Required Monthly Reconciliation Data, displays "estimated projections" based on the average of posted actuals through the most recent closed month.

Step 16: Update Monthly ledger log to reflect completed reconciliation.

Note: It is recommended that each area create a "Ledger Log" of all sponsored research projects and Research Initiative Accounts (RIAs) to ensure that all are appropriately tracked and reconciled on a monthly basis.

Steps 17 -21 are recommended by the University Controller's Office (UCO) as the preferred practice:

Step 17: Once completed and saved, clicking the Print button on the Summary sheet to print the entire workbook to the designated default printer (macros must be enabled to use this function).

Click to print the entire workbook to the default printer.

Select "Entire workbook" to print all the worksheets within the Rapid Reconciliation tool.

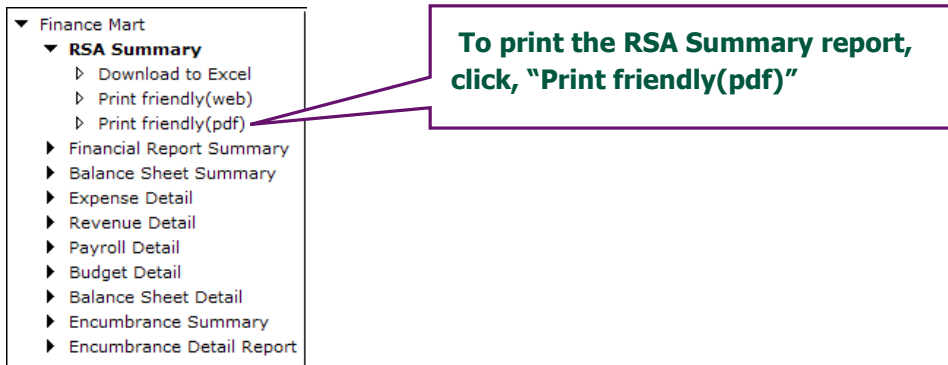

Initial and Date the Summary page as the Reconciler.

Reconciler's Initials (Prepared by):		Date:	
---	--	-------	--

Note: Any discrepancies/unresolved items should be detailed on the associated spreadsheet or attached memo.

Step 18: Prepare the “**Reconciled Ledger Packet**” as part of monthly reconciliation process. The Packet includes, but not limited to: the [Rapid Reconciliation](#) workbook; RSA Summary report; Payroll Detail; Expense Detail; additional reports may be added when requested by the PI/Accountable Officer.

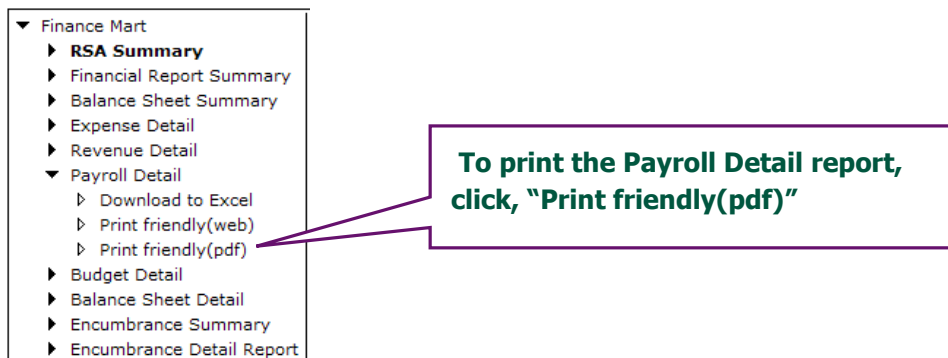

To print the RSA Summary report: after running the RSA Summary report for the selected period, click the “Print friendly(pdf)” link on the left hand menu.

The screenshot shows a web application menu titled "Finance Mart". Under the "RSA Summary" section, there are three options: "Download to Excel", "Print friendly(web)", and "Print friendly(pdf)". A purple callout box with a pointer indicates that to print the RSA Summary report, the user should click "Print friendly(pdf)".

Step 19: Forward for any additional internal reviews, as required; request return no later than close of business, next work day.

Step 20: Forward to the PI/Accountable Officer for review and signature on the [Rapid Reconciliation](#) tool Summary page; request return no later than close of business, next work day.

PI / Accountable Officer's Signature (Reviewed & Approved by):	Date:
<input type="text"/>	<input type="text"/>

Step 21: File returned/signed Ledgers in shared folder. **(Folder name format: PI Name – Project ID)**

Folder name format: PI Name – Project ID

File name format: PI Name – Project ID – Month Year

Note: It is recommended that the folder be housed in a SharePoint/drive that is available as "Read Only" to the PI/Accountable Officer for easy access and review.

Reconciliation Follow-Through: Resolving Identified Discrepancies

Resolution Processes

The resolution of discrepancies noted in the reconciliation process is critical and time sensitive.

Corrections and adjustments must be processed in a reasonable timeframe, refer to Research CCHIP #001, [Timeline for Processing Cost Transfers on Sponsored Projects](#).

To resolve payroll expenditure discrepancies, a [Payroll Retroactive Expenditure Transfer \(RET\)](#) must be prepared, approved by the PI/Accountable Officer, and submitted through Right Now Service (RNS). Refer to: [Instructions for Submitting Payroll Expenditure Transfers](#).

To resolve non-payroll expenditure discrepancies, the [Journal Entry Spreadsheet \(for non-payroll expenditure transfers\)](#) must be prepared, approved by the PI/Accountable Officer, and submitted through RNS. Refer to: [Instructions for Submitting Non-Payroll Expenditure Transfers](#).

To resolve budget discrepancies, a [Budget Transfer](#) or [Underwrite](#) form must be prepared, approved by the PI/Accountable Officer and then submitted to Sponsored Research for approval and processing. Further review and approval may be required in accordance with sponsor guidelines."

To know when it is appropriate to process a budget transfer, please refer to CCHIP #19, which can be found at this URL: http://usfweb2.usf.edu/uco/research/CCHIP019_Budget_Transfers_on_Sponsored_Awards.pdf

Distinction between resolving discrepancies and correcting errors:

Resolving discrepancies involves identification of the error (Where did the charge go? Why didn't it post? Where should the charge have posted? Did the pay distribution get changed? etc.)

Correction of the error is the follow up using the forms and processes once an error is identified. Resolving discrepancies may also involve non-correction activities, but rather follow up with other offices (What is the status of my underwrite? ETR?, RET?, etc.)
