

USF Research Administrators In the Spotlight recognizes accomplishments of featured research administrators contributing to USF's success as a high-impact, global research university.

Recognize a USF research administrator today! We invite you to submit requests for USF research administrators to appear in the *Spotlight* by sending the [Spotlight Request Form](#) to TRAIN@usf.edu.

For more information, contact Elizabeth Foster, Program Manager, 813.974.3571 or TRAIN@usf.edu.

A message from the Senior Vice President

Photo by Aimee Blodgett

We honor and celebrate your contributions and accomplishments as professionals in the field of research administration at the University of South Florida.

One of the things that contributed to fiscal year 2015 being a record breaking year, with over \$440 million in research funding, was having highly trained, qualified, professional research administrators contributing to USF's research enterprise.

You have helped USF become one of the top research universities in the nation, ranked by the NSF as 43rd in total research expenditures for FY2013, among all U.S. universities, public or private.

We rely on your talents, dedication and commitment to excellence as we continue to move forward as a high-impact, global research university.

Congratulations!

Paul R. Sanberg, Ph.D., D.Sc.
Senior Vice President for Research, Innovation &
Economic Development
President, USF Research Foundation
Distinguished University Professor
University of South Florida
