Our professional staff is offering two presentations for faculty and staff groups to better equip them for supporting students of concern and those that have been victimized.

**Students of Concern: How to Identify, Support and Refer**
This one hour training covers how to identify, support, and refer a student of concern. The training provides participants with a hands-on activity to demonstrate how a student of concern might present themselves, and we provide specific skills for having one-on-one conversations with a student that is experiencing distress. Participants will also learn how and when to refer a student of concern to SOS/SOCAT.
To request training and accommodations, email socat@usf.edu

**Supporting a Victim**
This 30 minute presentation provides participants with an overview of services offered through the Center for Victim Advocacy. Participants will also learn how to provide trauma informed support to those who have experienced an incident of victimization.
