WHAT IS THE NETWORK?

The Network consists of a variety of interest groups that you can join to make connections with other students who share that interest, hobby, or passion of yours. Each Network is led by Peer Advisor Leaders (PALs) who will help you connect in group activities as well as one-on-one with other new students.

Meet People: The Network is a great way to meet students who share a similar interest, passion, or common experience.

Make USF Your Home: By attending events, you can make this large university feel like a much smaller community It is our hope that you feel like you truly belong here starting during your very first week at USF.

Get Involved: If you aren't quite sure which of the 700+ student organizations is right for you, The Network is a great place to start. You can start to experience what USF has to offer by getting involved with a variety of campus activities and making connections with both new and returning students.
