Mandatory Immunization Health History Form

Basic Instructions: DO NOT WAIT! Late, incomplete or inaccurate information will prevent course registration.

☐ Include the student’s ID on all correspondence. Print all student information legibly (name, phone, etc.).

☐ MINORS (students under 18): A parent/guardian signature must be included.

☐ KEEP A COPY FOR YOUR RECORDS.

☐ Mail, fax, email or submit online (www.shs.usf.edu) only page 1 (and supporting medical documentation/lab reports as needed) at least three (3) weeks prior to orientation/course registration.

Section A: Information about Required Immunizations

MMR Vaccine – Required for EVERYONE born after Dec. 31, 1956. This combination vaccine is often given because it protects from measles, mumps and rubella. Two doses are required for entry into the state university system of Florida. First dose must have been received after 1st birthday. The second dose must have been received at least 30 days after the first dose.

Hepatitis B Vaccine – Center for Disease Control (CDC) recommends this vaccine series. Students in many academic health programs are required to have this vaccine. Students declining this vaccine must read the information about Hepatitis B to understand the possible risk in not receiving this vaccine (available at www.cdc.gov/vaccines/pubs/vis/).

Menactra/MCV4 (Meningococcal Meningitis Vaccine) – Required for all students who will live on the USF campus. The Advisory Committee on Immunization Practices (ACIP) recommends this vaccine for students living in campus residence halls. Students will NOT be assigned a USF residence hall room until proof of this vaccination is received by USF. Students not living on campus, declining this vaccine, must read the information about Menactra/Meningococcal Meningitis to understand the possible risk in not receiving this vaccine (available at www.cdc.gov/vaccines/pubs/vis/). Most recent dose must have been received after 16th birthday.

Tuberculosis Screening: Required for all international and U.S. Born students residing at an address outside the U.S. and Most Academic Health Programs – A Tuberculosis Skin Test by PPD or Mantoux or Blood Test (QFT or Tspot) is required within the last six months prior to semester begin date.

PPDs must be read between 48-72 hours of administration. The result must be listed in “mm” and indicate whether negative or positive.

If you do the blood test, submit a copy of the laboratory report.

If the PPD is positive or the Blood Test is positive, submit a physician signed copy of the chest X-ray report.

**An official translation is required for any forms not in the English language

Section B: To be completed by a medical facility, clinic, or health department

If vaccination record is not attached: an official stamp including an address from a doctor’s office, clinic or health department AND an authorized signature must appear here or this form will not be approved. All TITERS (blood tests) must have lab report attached.
