Upward Bound with Pride!

1966

UPWARD BOUND at the University of South Florida is a federal TRIO college access program sponsored by the United States Department of Education. The goal of the program is to increase the rate at which participants complete secondary education and graduate from institutions of postsecondary education. Upward Bound serves high school students from first-generation and low-income families. The program provides intensive preparation for college including academic year tutoring and rigorous summer instruction with a campus residential experience.
