Assistant or Associate Professor Position in MIS (Job ID 9327)

The Information Systems and Decision Sciences (ISDS) department at the Muma College of Business at the University of South Florida (USF) is searching for an outstanding candidate to fill a tenured/tenure-track faculty position in MIS at the rank of Assistant or Associate Professor.

Candidates must have a Ph.D. degree in Information Systems or a related discipline from an AACSB accredited institution or equivalent. Candidates who are expected to complete their PhD before starting in the position are also encouraged to apply.

Preference will be given to candidates with expertise in behavioral, empirical or experimental research methodologies and an ability to teach PhD level behavioral, empirical and/or experimental methods courses. Preference will also be given to candidates possessing a track record of publishing in leading journals in MIS, consistent with experience. A record of seeking and/or obtaining grants from competitive institutions such as NSF is also preferred.

The ISDS department at the Muma College of Business includes faculty members who engage in fundamental research in management, information systems and analytics, collaborate in interdisciplinary research programs, and publish in the leading journals in management, information systems and analytics. The department serves a wide variety of undergraduate and graduate programs at the college and university levels including the BS in Business Administration with major and minors in Management & MIS, MS in Management, MS in MIS, MS in Cybersecurity, MBA, executive MBA, PhD and DBA.

The University of South Florida is a high-impact, global research university located in beautiful Tampa Bay on Florida’s spectacular west coast. It is one of the largest public universities in the nation, and among the top 50 universities, public or private, for federal research expenditures. The university is classified by the Carnegie Foundation for the Advancement of Teaching in the top tier of research universities, a distinction attained by only 2.3 percent of all universities.

USF’s main campus is located in northeast Tampa. The concentration of high technology companies and shared services centers in this region affords many contacts and consulting opportunities. With mild weather and ample recreational opportunities, the Tampa Bay area is consistently ranked as one of the most attractive places to live in the United States. The USF website can be accessed at http://www.usf.edu.

USF is an Equal Opportunity Institution

Review of applications is ongoing and will continue until the position is filled. Applicants must apply for the position through USF’s on-line employment application system Careers @ USF, http://www.usf.edu/administrative-services/human-resources/careers/ (view Faculty positions for the Muma College of Business, Department of Information Systems and Decision Sciences, Job Opening ID #, enter basic demographic information, upload
a cover letter, names of three references, and curriculum vitae). For additional information you may contact the search committee chair below:
