Bachelor of Arts in French/International Studies Business

This degree offers two tracks—one concentrating on language, literature and culture, the other on language, business and international studies. Both tracks explore, immersion-style, the complex interconnections between language and multiple aspects of French and Francophone literatures, civilizations and cultures. The objectives of the two tracks include preparing students to think, speak, read, write, and analyze critically and fluently in this major global language as well as to function globally in a number of careers. Students are strongly encouraged to broaden their horizons by participating in one of USF’s study abroad programs.
