Message from the Director

Summer in Florida. Doesn’t have the same ring to it that winter in Florida has, does it? As we go to press on this edition of Evergreen, our friends up north continue to shovel out of the latest “snowpocalypse.”

While we enjoy our mild and sunny winters, many of us also dread the inevitable heat and humidity of summer. Our expanded spring/summer catalog contains courses that will run May through August, and like any OLLI season, there are one-time only offerings as well as popular repeat courses. Seeking shelter from the (thunder) storm? Escape the heat and join us in a cool classroom this summer! You’ll find nourishment for body, mind and spirit.

Newcomers to OLLI, welcome. We are offering a special term-membership this term for just $10! Join us and see what OLLI is all about!

OLLI’s Apple computer courses use Apple’s current operating system. As of winter 2015, that will be the Yosemite OS, available free by download to Apple users.

OLLI Improv Class at Stageworks

This winter, Stageworks Theater, a professional theater company located in the Channelside district, expanded its educational reach to include senior learners by offering a workshop in improvisation for non-actors, “Discovering Your Inner Thespian.”

The class, led by Dawn Truax, talented local actor and educator, was intentionally kept small to create more opportunities for improvised interactions. Any shyness or skepticism on the part of class members was banished by the end of the first class, as Dawn assured them “everything you do here is perfect.”

Many seniors feel they become invisible to the world as they age. With each improv session, however, confidence and creativity in expression grew with laughter, encouragement and mutual support as key elements.

Visit stageworkstheatre.org for a schedule of upcoming plays, and join in next time we offer this creative opportunity.

Do you receive the OLLI-USF weekly e-blast?

Ninety-two percent of American adults listen to the radio each week, but few really understand what goes on behind the microphone and how radio has grown from the wireless telegraph to one AM broadcast station in 1920 and to more than 15,000 stations in the U.S. today. In this course, we’ll examine the formative years of radio – how stations were assigned, marketed and programmed during the first half of the 20th century. We’ll listen to Amos and Andy, Fireside Chats, War of the Worlds and even try creating our own radio drama with you as the star!
Instructor: George Hyde

Course # SHPC1811
Nearly everyone depends on the radio for information and entertainment, and today more than 15,000 stations serve their niche audiences with carefully researched programming ranging from alternative rock to conservative talk. We’ll hear how radio responded to competition from television and subsequently achieved its greatest audience and financial success. We’ll listen to excerpts from stations we grew up with and examine the dynamics of the radio market in Tampa/St. Petersburg. Learn how you can influence what you hear now and what you will hear in the future, and get a look behind the scenes of a leading local station.

Carpe Diem!
A new SIG, with an emphasis on fun, is in full swing. Rediscover the joy of getting together with like-minded people to dance, dine and socialize. Join lively discussions of historical, literary and political issues; watch our local teams and take advantage of the area’s cultural attractions including theatre and museums; or select another area of interest or even create your own. For more information, contact OLLI Board Chair Richard Isinghood at 863-712-3010 or Risinghood@gmail.com.

Can I Start a SIG?
Yes, OLLI’s special interest groups (SIGs) foster learning and friendships by linking OLLI-USF members who share a common interest (bridge, hiking, movie or play-going, etc.). SIGs do not take the place of OLLI courses and programs — they complement them! Like everything else at OLLI-USF, all it takes is a member willing to take the lead and find others who share the same interest. Contact the OLLI office to request a set of SIG guidelines and a SIG application. Or contact OLLI Board member Bill Sapper at tampabill@verizon.net or 813-994-3807 for more information.

Check the OLLI master calendar for future SIG meeting dates at bit.ly/OLLI-USFcal (case sensitive).

After exploring the background and popularity of these tales, you will analyze *Little Red Riding Hood*, discovering meanings lost to modern audiences.

But if you do, WUSF Public Media reporter/producer Mark Schreiner will talk about his 20 years in the news business and share some tasty (and not-so-tasty) facts you didn’t know. A graduate of Columbia College in Chicago, Schreiner currently produces University Beat, a TV/radio feature on WUSF Public Media.

It’s All Relative: Einstein in 1905
June 12, Registration deadline: June 10
Fee: $0, Parking: $0, Canterbury Tower, Assembly Room
Program # STSE063D

Long before the “Big Bang Theory,” one man recognized that “creativity is intelligence having fun.” In 1905, Albert Einstein, then a young, relatively unknown physicist, published three papers on physics that revolutionized the field. These papers presented the theory of relativity, conclusively confirmed the existence of atoms and explained the photoelectric effect, thus setting the stage for quantum mechanics. Let David Birnbaum, PhD, a physicist and engineer who has worked in both academia and industry, reveal why those ideas set in motion a new way of thinking about our world.

Fridays 12:15-1:15 p.m., FREE to OLLI members and their guests. PRIOR REGISTRATION IS REQUIRED. Note the registration deadline for each lecture.

The Friday Lecture Series features a variety of speakers who discuss and address current issues of interest. These informal free lectures are a great way to introduce your friends to OLLI. Fee: $0, Parking: $2.68, USF Tampa, NEC300
Program # STSE063K

The centennial of World War I has drawn attention to many issues beyond the war itself. Indeed, the term “genocide” is said to have been coined explicitly for this tragedy. Dennis R. Laffer, MD, currently pursuing a PhD in modern American history, will explore the roots of the Armenian-Turkish conflict. In the context of World War I, Laffer will present the events of the genocide of Armenians within the Ottoman Empire.
