General Comments

- Prior to being admitted to a department, a student may be permitted to take no more than two departmental Engineering courses (selected from EML 3500, EML 3022 and EML 3035 for Mechanical Engineering).
- Students must apply for graduation one semester prior to their anticipated graduation date.
- Solid lines are pre-requisites.
- Dashed lines are co-requisites.
- Effective Fall 2014:
  - Minimum Admission Requirements:
    - 2.0 overall GPA
    - 3.0 GPA in Calculus 1, Calculus 2 & General Physics 1 based on best attempts
  - Minimum Continuation requirement: (beyond first semester in department)
    - 2.0 overall GPA, 2.0 EGN engineering GPA, and 2.0 EML specialization GPA
    - C in both EML 3500 Mechanics of Solids and EGN 3343 Thermodynamics I
    - C- in all other EGN and EML prerequisite courses
    - D- in all terminal courses

Footnotes

1. One of these courses must be a Gordon Rule course.
2. Any approved Fine Arts Elective from the undergraduate catalog may be taken
3. Any approved Social and Behavioral Sciences Elective from the undergraduate catalog may be taken. However, since the Department requires “EGN 3615 – Engineering Economics with Social and Global Implications”, it is preferred that this be taken to satisfy 1 of the 2 Social and Behavioral Sciences Electives. However, if you already have met the Social and Behavioral Sciences requirement, EGN 3615 will count as a Technical Elective. Please note EGN 3615 cannot be used to satisfy both, Social and Behavioral Elective, and Technical Elective requirements. The course will only satisfy one or the other.
4. Any approved Humanities Elective from the undergraduate catalog may be taken.
5. Any approved Human and Cultural Diversity and Global Context Elective from the undergraduate catalog may be taken.
6. This course satisfies the USF exit requirement “Writing Intensive”. It must be taken at USF.
7. This course satisfies the USF exit requirement “Capstone”. It must be taken at USF.
8. Students must choose four courses from the approved technical/design/science electives list. Three of the four courses must be from the ME Department (EGN 3615 – Engineering Economics with Social and Global Implications is counted as an ME Department Technical Elective).

PLEASE SEE THE ME UNDERGRADUATE COORDINATOR WITH ANY QUESTIONS
