120 credits: A Bachelor’s degree requires a minimum of 120 credit hours.
42 upper level credits: All students are required to take at least 42 credits at the 3000 & 4000 level. Please note: The Chemistry BA major courses will satisfy 21 credits of the required 42 credits. Based on the number of upper level credits you have already taken, you have _____ upper level credits remaining, outside of the major courses.
9 credit summer rule: All students who enter USF with fewer than 60 credits are required to take at least 9 credits of course work in the summer at a State University System (SUS) 4-year University.

12 cr of Gordon Rule Writing ENC 1101 & ENC 1102, and two additional courses

FLEX: Foreign Language Exit Requirement: Bachelor of Arts students are required to take two semesters of a foreign language in college. Please visit Cooper 419 if you choose to test out of this requirement. American Sign Language will count for science majors.

See the USF catalog for a complete list of graduation requirements. The final responsibility for meeting all graduation requirements stated in the catalog rests with the student. This sheet is not meant to be a complete list of University Graduation requirements.
