RESEARCH EXPERIENCE

Research Assistantship *Aug. 2023-May 2024*
Supervisor: Dr. Joanna Burchfield
Worked as a research assistant organizing student-reported reflections in the Economic and Social/Global Impact course. This work examines the connections students make between their social/global impact engineering coursework and interpersonal communication.

Research Team *Jan. 2023-Present*
Supervisor: Dr. Steven Wilson
Participated on a four-person team in which we coded qualitative data, analyzed responses using the Goals-Plan-Action model, and sensitized meaning using Normative Rhetorical theory. We are currently in the process of writing a paper to be submitted to the International Communication Association annual conference.

Research Assistantship *Jan. 2023-May 2023*
Supervisor: Dr. Mahuya Pal
Worked as a research assistant indexing a manuscript on transnational feminism, maintaining and formatting the key words and abstracts for thirteen authors' chapters, and editing citations, among other research activities. During this assistantship, Dr. Pal invited me to contribute to her chapter on transnational feminist ethics, in which I wrote the introduction, edited the completed chapter, and organized references. The chapter is forthcoming and will be part of the International Communication Association's handbook series.
