Students may submit syllabi from courses offered by other disciplines that are not on this list to the INT Academic Advisor for review to see if the course may count as an INT elective from another discipline. This should be done prior to taking the course. Additionally, it is strongly advised that students take no more than 2-3 courses from the major at a time in order to be able to be successful in the major courses. In addition to the 36 credits of the major, students must also meet the INT Foreign Language requirement for either a Western Language or a non-Western Language. For a Western Language, students must complete or show proficiency through the Intermediate I level of the language. For a non-Western language, students must complete or show proficiency through the Beginner II level of the language. Students should consult with the INT Academic Advisor regarding their individual foreign language requirement for the INT major.
