The objective of the Italian program at USF is to prepare students to become receptive to the global concerns of our society increasing their capabilities in writing, speaking, intercultural literacy, and effective citizenship, all skills that are useful in a variety of professions. Our students are prepared to work in a variety of careers such as journalism, environmental communication, law, public policy, higher education, finance, culinary arts and food activism, fashion, international education, music and fine arts, publishing, psychology, and diplomacy, among other fields. Students will find that adding a foreign language on their resume is an asset and it provides them with extensive grammar practice of their own native language.

If you are choosing the concentration in Italian, please let us know:

FALL 2022

## ITA 4930 ENVIRONMENTAL HUMANITIES

This course will examine a range of environmentally themed issues facing our society through an overview of the entanglements of humans and things and our relationship with a variety of non-human contexts in a transnational perspective.
