

Application for Research Access

USF FACILITY FOR OUTDOOR RESEARCH AND TRAINING (USF-FORT) & DONATED SKELETAL COLLECTION

- Application for Research Access to USF-FORT
- Application for Research Access to Donated Skeletal Collection
- Application for Tissue Samples for Research

Checklist for Complete Application:

- Cover Letter of Intent – *Brief description of research, methods and what is needed in terms of time, access or samples. Also include full contact information and name of advisor (for student research). **If sampling, be sure the letter includes a list of samples, method of sampling, and specific testing. Also, if there are there any Special Requirements, be sure to include such as a statement about how remaining tissue (when sampled) will be disposed (i.e., un-used samples returned to USF, destroyed, etc.).*
- Proof of IRB Approval (when applicable)
- Approval from student's major advisor

Name: _____

Institution: _____

Phone: _____

Email: _____

Title of Research: _____

Duration (if site visit required): _____

- YES or NO Do you agree to share your results/outcomes with IFAAS?
- YES or NO Do you agree to adhere to the USF-FAL and USF-FORT Rules and Policies when conducting research on site?
