

Transfer Admission Requirements: Math and Statistics Majors

To declare a major in our college, students must be able to graduate on time as outlined in the [USF Degree Progression Policy](#). The goals of this policy are to ensure students can graduate timely with the lowest overall costs. This allows our students to more rapidly progress through their degree programs and move into the work force without a large student loan debt.

All transfer students admitted to USF will be **restricted to declaring majors in which they are able to graduate on time**. Students expected graduation timeline is based on the number of earned semester hours when transferring to USF, including any in-progress coursework.

- **Upper-Level Transfers** (60 or more earned semester hours) are expected to graduate within 2 years
- **Upper Mid-Level Transfers** (45-59 earned semester hours) are expected to graduate within 2.5 years
- **Lower Mid-Level Transfers** (30-44 earned semester hours) are expected to graduate within 3 years
- **Lower-Level Transfers** (12-29 earned semester hours) are expected to graduate within 3.5 years

To meet the Degree Progression Policy and graduate on time, transfer students interested in pursuing natural sciences and mathematics majors will need transfer credits complete in specific science and math coursework prior to entry. To maximize opportunity for students to pursue a natural science or mathematics major, we have created flexible (where possible) sets of courses to meet admission criteria.

You will find the admission criteria listed on page 2 of this document. The criteria are designed to address the different progression needs for our varied majors, in context to the student's transfer status. **Checked courses are priority for degree progression, and must be used first to meet minimum class requirements.** For example, if there are three checked courses on a list and a student's level requires three courses, they must have completed all three. Corresponding labs should be taken alongside lectures wherever possible.

Introductory science courses do not apply. For some majors with a calculus requirement, students are not required to transfer with calculus already complete. In those cases, the students **MUST** have at least pre-calculus & trigonometry completed, or exam equivalent. C (2.0) is minimum grade required for all courses listed.

The College or Department must evaluate courses from an out-of-state or private institution to determine USF equivalency.

Required courses for Degree Progression Math, BA

- **Upper-Level transfers** (60 or more credits) must have 5 courses, including all checked courses
- **Upper Mid-Level Transfers** (45-59 credits) must have 4 courses, Calculus I through III
- **Lower Mid-Level Transfers** (30- 44 credits) must have 3 courses, Calculus I and II
- **Lower-Level Transfers** (12-29 credits) must have must have Calculus II

Math, BA:

- **Math:** Calculus I Calculus II Calculus III Differential Equations
 - **Science course (no more than two):**
 Chemistry I Biology I Biology II Physics I Geology
-

Required courses for Degree Progression in Math: Computational and Applied, BS

- **Upper-Level transfers** (60 or more credits) must have 4 courses, including all checked courses
- **Upper Mid-Level Transfers** (45-59 credits) must have 3 courses, Calculus I through III
- **Lower Mid-Level Transfers** (30- 44 credits) must have 2 courses, Calculus I and II
- **Lower-Level Transfers** (12-29 credits) must have must have Calculus I

Math, BS:

- **Math:** Calculus I Calculus II Calculus III Statistics Differential Equations
 - **Science course (no more than one, introductory can apply):**
 Chemistry Biology Physics Astronomy Environmental Science
-

Required courses for Degree Progression in Statistics

- **Upper-Level transfers** (60 or more credits) must have 3 courses, including all checked courses
- **Upper Mid-Level Transfers** (45-59 credits) must have 2 courses, Calculus I and II
- **Lower Mid-Level Transfers** (30- 44 credits) must have Calculus I
- **Lower-Level Transfers** (12-29 credits) must have Calculus I

Statistics, BA:

- **Math:** Calculus I Calculus II Calculus III Statistics
- **Science course:** Chemistry I Biology I Biology II Physics I Geology

*Students not transferring with calculus must have at least pre-calculus & trigonometry completed, or exam equivalent
