*Describe the equipment, commodity or contractual service and how it is to be used. Provide the justification for the single source (note price cannot be used for justification). Attach additional pages if necessary. The Justification should describe in lay language. The service/commodity and its intended use, The reasons the item is not subject to competition from other sources, The necessity for purchase, and why only this service/commodity has unique features or qualities that will accomplish the required needs of the buyer.*

AFL Networks has been maintaining our DAS environment for the past 4 years. Their historical knowledge of our antiquated system is critical in any installation at this time. DAS is a critical component to life safety that allows for cell phone coverage and 911 cellular service inside of buildings that normal service towers cannot penetrate. At this time we need to continue to work with AFL Networks while we work on releasing an ITN for a larger project to redesign and implement a new DAS system. This Single Source is for the next 12 months while we conduct the ITN, or until the ITN is awarded.
