The Approvals page now uses the new UX. In addition to the new UX, the actions drop-down menu has been moved to the bottom of page and is now only visible when at least one checkbox is checked. Finally, users can now quickly jump between different transaction types by using the tabs at the top of the page.
Receipts – New UX

The Receipts page now uses the new UX. This new UX will be activated by default but, users may switch back-and-forth between the new UX and the classic UX by using the toggle located at the bottom right-hand side of the page.
