THE UNIVERSITY OF SOUTH FLORIDA¹ Tampa, Florida

Overview

The University of South Florida ("University" or "USF"), established in 1956 and located in Tampa Bay on Florida's west coast, is a high-impact, global research university dedicated to student success. USF is comprised of three campuses located in Tampa, St. Petersburg and Sarasota-Manatee. Together, these campuses serve more than 50,000 students and offer undergraduate, graduate and doctoral degrees. The University has an annual budget of \$1.8 billion and an annual economic impact of \$4.4 billion. USF ranks in the top 25 nationally for research expenditures among public universities, according to the National Science Foundation. In 2018, the Florida Board of Governors designated USF as a Preeminent State Research University, placing USF in the most elite category among the state's 12 public universities. USF currently maintains Aa2 and AA issuer credit ratings with Moody's Investors Service and Standard and Poor's, respectively.

USF offers 244 degree programs at the undergraduate, graduate, specialty and doctoral levels, including the doctor of medicine. During the 2019-2020 academic year, USF awarded 10,303 bachelor's degrees, 3,399 master's degrees and 787 specialty and doctoral degrees. In its 64-year history, USF has awarded more than 400,000 degrees and more than 100,000 alumni live in the Tampa Bay area. The University's main Tampa location is home to USF Health, including the Colleges of Medicine, Nursing, Public Health and Pharmacy.

USF is a member of the American Athletic Conference, with 19 men's and women's varsity teams competing at the NCAA-level. New facilities for practice and competition, along with a completely renovated USF Sun Dome, put the university's athletic facilities on par with virtually every top program in the country.

COVID-19 Disclosure

In March 2020, the University of South Florida converted to remote instruction in response to the public health crisis created by the COVID-19 pandemic. The University began the Fall 2020 semester in accordance with the reopening plan approved by the Board of Governors of the State University System. The reopening plan included a hybrid delivery model for instruction. University enrollment was not negatively impacted. While the pandemic has adversely affected the revenues pledged for certain debt service, the University does not anticipate any difficulty in making its 2020-2021 fiscal year annual debt service payments. Finally, the pandemic has adversely impacted the revenue generated by the State of Florida. This may result in a reduction in future State appropriations. Thus, the University is executing a multi-year strategic budget plan to adjust spending to potentially available resources.

Governance

Effective January 7, 2003, a statewide Board of Governors was created pursuant to Article IX, Section 7(d), of the Florida Constitution to operate, regulate, control and be fully responsible for the management of the State University System. The Board of Governors defines the mission of each university and ensures the well-planned coordination and operation of the State University System. The Governor appoints fourteen members to the Board of Governors for staggered terms of seven years. The appointed members are subject to confirmation by the Senate. The Commissioner of Education, the chair of the Advisory Council of Faculty Senates and the president of the Florida Student Association also serve as members.

Each university is directly governed by a Board of Trustees ("Trustees"), consisting of thirteen members. The Boards of Trustees were created pursuant to Article IX, Section 7(c), of the Florida Constitution. The Governor appoints six citizen members and the Board of Governors appoints five citizen members. These members are confirmed by the Senate and serve staggered terms of five years. The chair of the faculty senate and the president of the student body of the university are also members. The Board of Governors establishes the powers and duties of the Trustees. The Trustees are responsible for setting policies for the university which provide governance in accordance with the rules of the State Board of Education and the Board of Governors. The university President serves as the executive officer and corporate secretary of the Trustees and is responsible for all operations of the university. Other senior administrative officers of the universities are designated by the

President. Generally, the Provost/Vice President for Academic Affairs assumes responsibility for the president during any absence and is the chief academic officer in the university organization. Other vice presidents have responsibility for specific areas within the organization. The deans of colleges and schools are responsible to the Provost for all matters relating to programs and personnel in their respective academic units.

The establishment of individual university boards of trustees has increased the individual institutions' control of their academic and fiscal affairs. While the exact structure of the new system continues to evolve, certain of the changes do provide the individual universities with greater fiscal autonomy and financial control.

Budget. Each university has control over its own budget, once State funds have been received.

Appropriations. The Florida Legislature retains control of the appropriations process.

Tuition. The State universities have been granted certain powers with regard to setting tuition and the right to retain their own tuition revenues. Still, tuition-setting power for in-state undergraduate students remains largely in the hands of the Legislature, with lawmakers determining the maximum allowable rates of tuition increase and universities setting the tuition within those limits. The ability for the University to set and collect a number of student service fees provides a meaningful offset to limitations regarding tuition.

Bonding Authority. Bond-issuing authority is granted to the State of Florida and its Division of Bond Finance; the University can also borrow through its certified direct support organizations, pursuant to statutes, pledging appropriate revenues.

Strategic Plan. The University of South Florida Board of Trustees adopts a strategic plan for the University for successive five year periods. The 2013-2018 Strategic Plan can be found here: http://www.ods.usf.edu/Plans/Strategic/docs/USF-Strategic-Plan-2013-2018.pdf

Buildings and Other Capital Facilities

The University of South Florida's campuses in Tampa, St. Petersburg, and Sarasota-Manatee are comprised of 1,646 acres, 1,562 of which are located at the main campus in Tampa, including the USF Research Park. The University facilities consist of 284 buildings that exceed 11.9 million gross square feet.

Capital Improvement Plan

The table below shows the capital improvement projects planned for the University's Tampa Campus (TPA), St. Petersburg Campus (STP), and Sarasota-Manatee Campus (SM) over five fiscal years commencing with the 2021-2022 fiscal year, as well as the proposed funding sources for each project. A majority of these projects will be funded from Public Education Capital Outlay monies generated from the collection of Gross Receipts Taxes levied on utilities and telecommunications services. Various other funding sources, including private funds and the sale of bonds, provide monies to finance the other capital improvement projects listed.

Budgetary Process

The University of South Florida Board of Trustees is required to prepare and submit to the Florida Board of Governors for review an annual operating budget which represents the University's plan for utilizing the resources available through direct or continuing appropriation by the Legislature, student fees, and other local sources. The operating budget is prepared and submitted in accordance with the provisions of State Law, rules of the Florida Board of Governors, and the General Appropriations Act. Any new State resources are allocated to the University according to the priorities set by the president, as are any University-wide reductions. The University's operating budget is comprised of the following budget entities:

Educational and General. The University receives an allocation of educational and general resources from the Legislature for E&G operating activities only, including general instruction, research, public service, plant operations and maintenance, student services, libraries, administrative support, and other enrollment-related and stand-alone operations of the University. The University allocates funds based on its strategic goals and initiatives according to the Strategic Plan. Allocations are distributed at the vice presidential and campus level for further distribution to the colleges, decentralized units, and departments within that vice presidential area or campus.

Student Activities and Other Student Fees. These budgets consist of planned expenditures funded from activity and service fees, health fees, technology fees and other student fees which the University is authorized by its Board of Trustees to charge its students. The budget is developed and approved in accordance with Section 1009.24 Florida Statutes.

Intercollegiate Athletics. This budget consists of planned expenditures funded from revenue sources including student athletic fees as authorized by Section 1009.24(12), ticket sales, private contributions, sales and licensing, and concessions. The athletic director prepares and submits an operating budget to the University's Board of Trustees. If accepted, this budget is submitted to the Board of Governors for approval.

Student Financial Aid. This budget consists of planned expenditures funded from revenues received for loans, grants, scholarships and other student financial aid.

Contracts and Grants. This budget consists of planned expenditures funded from contracts and grants sponsored by various private businesses as well as the federal, state and local units of government. This budget also includes gifts and grants from private sources.

Auxiliary Enterprises. This budget consists of planned expenditures funded from revenues generated by self-supporting functions and service centers. Each auxiliary manager submits a budget request to the appropriate Vice President. If accepted, these requests are consolidated into the University's operating budget.

Concessions. This budget consists of planned expenditures from revenues generated from vending machines in each campus. On the Tampa Campus, each vice presidential area submits a budget request to the Executive Vice President. If accepted, these requests are consolidated into a Concessions Budget for all campuses based on the guidelines provided by the Board of Education. This budget is included in the overall budget that is approved by the University's Board of Trustees and submitted to the Board of Governors for approval.

The University's operating budgets for the years indicated are shown in the table below.

Sources of Revenue

The University's operating budget includes appropriated and non-appropriated funds. The Educational and General budget entity is appropriated. Non-appropriated funds include the Auxiliaries, Contracts & Grants, Financial Aid, Intercollegiate Athletics, Activity & Service Fees and Concessions budget entities. The following table shows the percentage of the University's total revenues represented by each revenue source for the past five fiscal years.

Appropriated Budget Entities. Educational & General is comprised of General Revenue, Student Fees and Other Fees (Tuition), the Educational Enhancement Trust Fund (Lottery) and the Federal Grants Trust Fund (Stimulus). General Revenue is primarily funded from sales, corporate income and beverage taxes. Lottery ticket sales provide funds for the Educational Enhancement Trust Fund. The Student Fee Trust Fund revenue is derived from student matriculation and out-of-state fees, and other miscellaneous revenues that include library fines, application fees, late registration fees and a portion of the indirect cost assessed to contract and grant activity. The following tables show the University's appropriations of Education & General by each source for the past five fiscal years.

Non-Appropriated Budget Entities. The Auxiliary Enterprises budget entity is comprised of a number of trust funds including the Auxiliary Trust Fund, the Working Capital Trust Fund, the debt service trust funds and the parking and housing trust funds. These trust funds receive revenues generated primarily from sales to students, faculty and staff, University departments and other individuals. The Contracts & Grants budget entity is funded with awards from federal, state and local government, as well as other private contracts and grants. Other budget entities include student activities, athletics, campus concessions and financial aid. The funds are generated from student fees and vending machine sales. The following table shows the University's revenues from non-appropriated budget entities for the past five fiscal years.

The table below shows the historical full-time equivalent ("FTE") enrollment of the University by level. FTE is calculated using the IPEDS (Integrated Postsecondary Education Data System) methodology. The full-time equivalent of the University's part-time enrollment is estimated by multiplying the part-time headcount by the IPEDS factor for 4-Year Public institutions. The results are then added to the full-time enrollment headcounts to obtain an FTE for all students enrolled in the fall. According to IPEDS, "This formula is used to produce an FTE that is used annually in the Digest of Education Statistics."

Student Recruitment. The Office of Student Success coordinates and promotes university-wide efforts to enhance undergraduate and graduate student success. By recruiting and enrolling college-ready students, awarding financial aid and scholarships, and planning for timely degree completion for all students, the Student Success Team strives to create a positive teaching and learning environment designed to enrich all aspects of the student experience and ensure that every student who enters USF has the opportunity to success. The University is currently developing a comprehensive long-term enrollment plan that will allow it to coordinate academic planning, budgetary processes, capital campaigns, and facilities planning in an increasingly dynamic environment.

Student Quality Indicators. The following table shows the high school grade point averages, average Scholastic Aptitude Test (SAT) scores and average American College Test (ACT) scores for first-time-in-college students at University of South Florida for the past five fall semesters.

Student Quality Indicators First-Time-In-College Students

Research

In 2019-20, USF faculty received \$535 million in research contracts and grants. The College of Medicine led the University with \$357 million in contract and grants, which represents 67% of the total. Other University areas with large grant totals include the College of Engineering, \$40 million; College of Behavioral and Community Sciences, \$30 million; USF St. Petersburg, \$20 million; and College of Arts and Sciences, \$20 million.

The largest share of contracts and grants came from private funding sources with \$221 million of funding (41%). Federal funding sources provided \$219 million (41%) and the \$95 million balance represents funding from state and local government (18%). The following table shows research funding over the past five fiscal years.

Endowments and Fund Raising Efforts

The USF Foundation is a 501(c)(3) private, not-for-profit corporation chartered under Florida Statutes to function as the legal conduit for the acceptance, investment and distribution of all private gifts made to the University of South Florida. The USF Foundation promotes higher education in general, and specifically encourages the advancement of teaching, research and public service through private support for the University's academic and student development endeavors. Private gifts and commitments received by the Foundation totaled \$119 million, for operating, capital and endowment dollars to the University through the fiscal year ending June 30, 2020. Strong ties to the community have been built through the financial and civic commitments of corporations, foundations and individuals, including staff, faculty and alumni. The Foundation is guided by a Board of Directors composed of business and community leaders who are vitally interested in the welfare of higher education in the greater Tampa Bay region and in Florida. The Board directs the receipt and administration of private funds, properties and services contributed to USF. It accepts gifts in support of activities directly related to the mission of the University of South Florida, including cash, property (real or otherwise), securities, bequests, and trust and life income agreements.

Chartered in 1958, the Foundation has \$688 million in net assets. As of June 30, 2020, the Foundation's total investments had a market value of \$663 million. These assets are managed by outside investment managers, with review and oversight by the Investment Committee and an Investment Advisor. Review of performance, as well as spending and administrative fee policies, is completed on a quarterly basis by the appropriate committee and investment advisor.

The Foundation seeks to secure funding for the priorities established by the University and includes endowed professorships and lectureships which help retain the University's outstanding professors and to supply needed funds for their research and teaching efforts.

Historical gifts received by the University of South Florida Foundation, Inc. are shown in the table below.
