Management's Discussion and Analysis

Governance

The University of South Florida (the "University" or "USF") is a public educational institution accredited by the Commission on Colleges of the Southern Association of Colleges and Schools. The University is a part of the State University System and accordingly, the University is governed, regulated and coordinated by the Florida Board of Governors and the University Board of Trustees.

Financial Highlights

- Operating revenues from sales and services of \$12,550,041 decreased 13 percent below prior year's sales and services of \$14,422,183, as a result of a significant reduction in the number of decals and permits sold, parking fines of \$1.5 million and lower transportation access fee revenue of \$451,679 due to the University's decision in March 2020 to convert all classes to remote instruction for the remainder of the spring 2020 semester.
- Interest earnings decreased \$173,618, or 25.2 percent, due to decreased investment balances of \$1,045,562.
- Operating expenses showed a modest increase, principally related to salaries and benefits, higher by \$557,338 offset by a decrease in regular expenses of \$312,918. The increase in salaries and benefits was largely due to significant increases in pension expenses and OPEB expenses.
- Net cash provided by operating activities of approximately \$3.9 million directly corresponds to sales receipts net of operating expenses.
- The Parking System remains very solvent at June 30, 2020 with net assets of \$47.8 million, as total assets of \$65.6 million exceed total liabilities of \$17.8 million.
- Unrestricted cash, cash equivalents and investments of \$17.4 million provide excellent liquidity to the Parking System.
- The Parking System maintains restricted cash and investments of \$12 million for capital projects, a debt service reserve and funds for renewal and replacement costs.

Overview of Financial Statements

The Parking System financial statements include the following financial elements:

A Statement of Net Position provides detail for the assets of the Parking System as well
as its outstanding liabilities. The difference between assets and liabilities is reported as
net position. The net position presentation shows additional breakdowns of available
resources of the Parking System versus those that are restricted. Changes in net position
over time indicate an improving or deteriorating financial position.

- The Statement of Revenues, Expenses and Changes in Net Position, presents the
 revenues and expenses of the current fiscal year which resulted from operations. The net
 revenue less expense when combined with other non-operating sources such as interest
 income and interest expenses results in the net income to the Parking System generated
 for the fiscal year, which increased the Net Position presented on the Statement of Net
 Position.
- The Statement of Cash Flows shows those items that resulted in sources and uses of cash to the Parking System's cash balance for the fiscal year for both restricted and unrestricted cash. A reconciliation of the change in cash to the operating income of the Parking System is also included.
- The Notes to the Financial Statements provide background information that meets stringent governmental accounting reporting requirements and gives additional information that may not be readily seen on the actual statements. Examples of such information include: a summary of significant accounting policies, capital assets, compensated absences, and bond indebtedness. The notes are an integral part of the financial statements.

Revenue is derived from the student transportation access fee assessed on a per credit-hour basis, faculty/staff and student permit sales, citations, visitor vending/meter collections, and other miscellaneous income such as advertising revenues and charter fees. The Parking System uses the revenue to provide parking and transportation services to students and University employees. The Parking System must operate as efficiently as possible while still providing the University community with a superior level of service.

Over the past several years there has been a significant improvement in sales of services, revenue collection and budgetary controls. This has resulted in a very strong financial position for future capital expansion. The above improvements to sales, collections, and budgetary controls were made possible by:

- Improved debt collection strategies and follow-up
- Improved management of fixed and variable expense
- Short and long-term goal setting

The accompanying notes to financial statements are an integral part of this statement. Totals may not foot due to rounding.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the University of South Florida Parking Facility Revenue Bonds are an integral part of the financial statements of the University of South Florida (the University). The University is a part of the State University System and accordingly, the University is governed, regulated and coordinated by the Florida Board of Education and the University Board of Trustees.

The Parking System's financial statements have been prepared in conformity with generally accepted accounting principles as applied to governmental units. The significant accounting policies of the Parking System are described below:

Basis of Presentation: The Parking System is classified as a business type activity and accounts for its operations through the use of an enterprise fund. Enterprise funds are used to account for activities similar to those found in the private sector, where the determination of net income is necessary or useful for sound financial administration.

Basis of Accounting: Basis of accounting refers to when revenues, expenses, and related assets, deferred outflows of resources, liabilities, and deferred inflows of resources, are recognized in the accounts and reported in the financial statements. The financial statements are prepared on the accrual basis of accounting. Revenues are recorded when earned, and expenses are recorded when incurred. All fund assets and liabilities, current and noncurrent, are accounted for on the statement of net assets. Enterprise funds have the option under Governmental Accounting Standards Board (GASB) Statement No. 20, Accounting and Financial Reporting for Proprietary Funds and Other Governmental Entities that Use Proprietary Fund Accounting to elect to apply all Financial Accounting Standards Board (FASB) pronouncements issued after November 30, 1989, unless FASB conflicts with GASB. The Parking System has elected not to apply FASB pronouncements issued after the applicable date.

Investments: Investments are stated at fair value, which is based on quoted market prices; investment fund shares are determined by the fair value per share of the fund's underlying portfolio.

Deferred Loss on Refunding: In connection with the issuance of the Parking System's bonds, certain related costs are deferred and amortized over the life of the related issue using the straight-line method. The use of the straight-line method does not materially differ from the effective interest method.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Capital Assets: Capital assets are stated at cost. Depreciation on buildings is computed using the straight-line method over an estimated useful life of the asset. The useful lives of the asset are as follows:

Buildings
 Furniture, fixtures and equipment
 Vehicles
 Software
 20 to 40 years
 5 to 15 years
 10 years
 5 years

When assets are retired or otherwise disposed of, the costs and related accumulated depreciation are removed from the accounts and any resulting gain or loss is reflected in the results from operations in the period of disposal. Net interest costs are capitalized during the construction period.

Revenue Recognition:

Investment Income: Interest on investments is recorded as income when earned.

Sales and Services: Revenue is derived from the student transportation access fee assessed on a per credit-hour basis, faculty/staff and student permit sales, citations visitor vending/meter collections, and other miscellaneous income such as advertising revenues and charter fees. Revenue is recognized when earned.

Compensated Absences Liability: Employees earn the right to be compensated during absences for annual leave (vacation) and sick leave pursuant to the Florida Administrative Code, and to bargaining agreements between the State of Florida and the United Faculty of Florida.

Leave earned is accrued to the credit of the employee and records are kept on each employee's unpaid (unused) leave balances. GASB Statement No. 16, Accounting for Compensated Absences, requires that the University accrue a liability for employees' rights to receive compensation for future absences when certain conditions are met. At June 30, 2020 and 2019, the estimated liability for annual and sick leave was \$288,856 and \$277,105, respectively.

Allowance for doubtful receivables: Accounts Receivable was calculated by aging the accounts over one year as doubtful. Immaterial amounts from accrued receivables are not recognized in these financial reports.

NOTE 2 – CASH AND CASH EQUIVALENTS

Amounts reported as cash and cash equivalents consist of cash on hand and cash held in demand accounts. University cash deposits are held in banks qualified as public depositories under Florida law. All such deposits are insured by the Federal depository insurance, up to specified limits, or collateralized with securities held in Florida's multiple financial institution collateral pool required by Chapter 280, Florida Statutes.

NOTE 3 – INVESTMENTS

Pursuant to Section 218.415(16), Florida Statutes, the University is authorized to invest in the Local Government Surplus Funds Trust Fund investment pool; interest-bearing time deposits and savings accounts in qualified public depositories; direct obligations of the US Treasury; obligations of Federal agencies; securities of, or interests in, certain open-end or closed-end management type investment companies; SEC registered money market funds; and other investments approved by the University's Board of Trustees.

Investments set aside to make debt service payments, maintain sinking or reserve funds, or to purchase or construct capital assets are classified as restricted.

The University's recurring fair value measurements as of June 30, 2020 are valued using the following valuation techniques and inputs:

United States Treasury securities and Bonds and notes: These securities are valued daily by a pricing service that uses evaluated pricing applications which incorporate available market information. Available information is also applied through benchmarking processes, sector groupings, and matrix pricing (Level 2 inputs).

Stocks and other equity securities: This type includes domestic and international equities valued at quoted prices in an active market (Level 1 inputs).

Equity Mutual Funds: This category includes investments on domestic and international equities through commingled fund structures. The investment objective of these funds is to track the performance of their respective benchmarks. Investments in this category are valued at quoted prices in an active market (Level 1 inputs).

Bond Mutual Funds: This category includes investments in fixed income securities through commingled fund structures. The investment objective of these funds is to track the performance of their respective market-weighted indices with a short-term dollar-weighted average maturity. Investments in this category are valued at quoted prices in an active market (Level 1 inputs).

Money Market Mutual Funds: This category includes investments in high-quality money market instruments through commingled fund structures. The investment objective of these funds is to maximize current income, to the extent consistent with the preservation of capital, and maintain liquidity. Investments in this category are valued at quoted prices in an active market (Level 1 inputs).

The University's investments at June 30, 2020, are reported as follows:

Because the University reports under the GASB reporting model, it is required to disclose various investment risks. The University Board of Trustees has adopted a written investment policy. The University's investment policy allows investments in cash and cash equivalents, equities, and fixed income investments. The following risks apply to these investments:

Interest Rate and Credit Risk: Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The University investment policy limits the short term fixed income portfolio (United States Treasury securities, United States government agency obligations, mortgage-backed securities, corporate debt, state and municipal securities investments) to a weighted average duration of less than five years. For long term investments, the investment policy does not limit the duration for long term corporate notes or other direct debt obligations. The University investment policy provides for interest rate risk. The risk varies depending on the type of investment.

Credit Risk: Credit risk is the risk that an insurer or other counterparty to an investment will not fulfill its obligations. The University investment policy provides that all fixed income securities investments shall be rated in the top three rating classifications as defined by both Moody's and Standard & Poor's. The University investment policy provides for credit rate risk. The risk varies depending on the type of investment.

The following interest rate and credit risks apply to the University's investments in debt securities and money market mutual funds at June 30, 2020:

University Debt Investment Maturity and Quality Ratings

	Weighted	Credit Qu	ality Rating

Notes: (1) Disclosure of credit risk is not required for this investment type.

- (2) USF Health Sciences Center Self-Insurance Program
- (3) University

Concentration of Credit Risk: Concentration of credit risk is the risk of loss attributed to the magnitude of the investment in a single issuer. The University's investment policy provides that the maximum amount that may be invested in the securities of an individual issuer not backed by the full faith and credit of the U.S. Government shall not exceed five percent of the assets of the investment portfolio, and no single corporate bond issuer shall exceed five percent of the market value of the investment portfolio. Direct investments in securities of the U.S. Government, Government agencies and State of Florida Investment Pools, or Pooled Funds comprised solely of U.S. Government Securities are not subject to these restrictions.

The Parking System investments are held in the bond and money market mutual funds listed above. Investment earnings for the year ended June 30, 2020 and 2019 were \$515,694 and \$689,311, respectively.

NOTE 4 – NET RECEIVABLES

Accounts receivable is reported net of an allowance for uncollectible accounts. At June 30, 2020, allowance for uncollectible accounts was estimated to be \$246,295.

The bond resolutions provide for the establishment of Sinking Funds to be held and administered by the State Board of Administration (SBA) for the purpose of paying the principal and interest on the bonds as they become due. The bond resolutions provide for the establishment of a Reserve Account which is to be used for payments of debt service when amounts in the Sinking Fund are insufficient. The Reserve Account will be funded in an amount equivalent to Maximum Annual Debt Service by surety bond from Municipal Bond Investors Assurance Corporation.

The bond covenants require the establishment of facility maintenance and equipment reserve funds. Proposed annual operating budgets of the University shall provide for at least 3% of the total annual projected pledged revenues for each specific bond issue to be deposited into a reserve fund(s) for auxiliary facilities until an amount equal to at least 30% of the current year annual pledged revenue is reached. The required amount is currently 30% of the current year annual pledged revenue.

The monies in said Parking System Maintenance and Equipment Reserve Fund may be drawn on and used by the University for the purpose of paying the cost of unusual or extraordinary maintenance or repairs, renewals and replacements, and the renovating or replacement of the equipment and furnishings not paid as part of ordinary and normal expense of the operation and maintenance of the Parking System.

Interest paid on bonds for the fiscal year ended June 30, 2020 and 2019 respectively was \$330,330 and \$386,430.

¹ The number of parking decals issued includes decals that were issued as replacements at no charge or which were prorated throughout the year. State Sales tax

is added in addition to price listed.

This decal allows staff members access to certain designated lots on campus (currently there are six gold lots). The number of gold permits sold directly corresponds to the available spaces in the gold lots; consequently, those staff members possessing a gold decal are guaranteed an available parking space.

¹ The University has an accrual basis system. Expenses for capital outlay are capitalized on the balance sheet and corresponding depreciation expense is reflected in this schedule.

² Totals may not foot due to rounding

³ Also includes meter collections, citation collections, vending permit collections and transportation collections, which are not budgeted separately, but are combined with Decal Sales for budgeting purposes.

⁴ The large variance in budgeted versus actual Regular Expenses in 2016-17 was due to transit bus purchases and special projects that were deferred, a decrease in reimbursement to the University for cost of services, and budgeted expenses that were subsequently capitalized

⁵ The large variance in budgeted versus actual Regular Expenses in 2017-18 was due to special projects that were deferred, utility savings, lower than anticipated Upass expenses, and budgeted expenses that were subsequently capitalized.

⁶ The large variance in budgeted versus actual Total Payroll in 2018-19 was due to an increase in vacant positions resulting in decreased expenses for other postemployment benefits, wages, and compensated absences

⁷ The large variance in budgeted versus actual rotal rayroll in 2018-19 was due to an increase in vacant positions resulting in decleased expenses for other positions resulting in decleased expenses for other positions, wages, and compensated asset of the positions resulting in decleased expenses for other positions, wages, and compensated asset of the positions resulting in decleased expenses for other positions, wages, and compensated asset of the positions resulting in decleased expenses for other positions, wages, and compensated asset of the positions resulting in decleased expenses for other positions resulting in decleased expenses for other positions.

⁸ The large variance in budgeted versus actual Total Payroll in 2019-20 was due to increase in vacant positions resulting in decreased expenses and for other postemployment benefits, wages, and compensated absences

⁹ The large variance in budgeted versus actual Regular Expenses in 2019-20 was due to special projects that were budgeted but not undertaken during the year, and due to reduction in expenses resulting from the University's decision in March 2020 to convert all classes to remote instruction for the remainder of the spring 2020 semester.

^{*} The University has restated all FTE data. The University no longer reports FTE information using the "Florida" methodology, but now uses the "Federal" methodology referred to as "IPEDS" FTE (Independent Postsecondary Education Data System from the National Center for Education Statistics). Annual full-time equivalency under the "Federal" methodology is 30 hours for undergraduate students and 24 hours for graduate students. FTE enrollment is determined by dividing the total number of hours enrolled by all students in a specific category by the appropriate hour requirement. Annual full-time equivalency under the previously used "Florida" methodology is 40 hours for undergraduate students and 32 hours for graduate students.

¹ The financial information related to revenues and expenses was provided by the University and has not been audited.

² The increase in operating revenues in 2017-18 was due to an increase in permits sold and an increase in student credit hours, and the decrease in 2019-20 was due to the University's decision in March 2020 to convert all classes to remote instruction for the remainder of the spring 2020 semester.

Excludes depreciation expense and University administrative overhead charges included as operating expenses in the financial statements. Administrative overhead charges were \$773,881 in 2015-2016, \$831,500 in 2016-2017 and \$871,859 in 2017-2018, \$829,459 in 2018-2019, and \$897,998 in 2019-2020.

⁴ Includes only interest earned on the operating account of the existing Parking System.
