Getting Started Using MyPlan
To begin, click on the “Assessment” tab at the top of the screen. Each assessment varies in length, but most can be completed within 15 minutes. Each test must be completed once you start it. Incomplete tests cannot be saved. Each question must be answered in order — do not skip questions. Once you have completed a test, it will appear in the “My Reports” folder under “My Portfolio.” If you elect to keep your results private, a counselor will not be able to access your results.

For any assessment you take, click on “CareerMatch” to see the list of occupations that correspond to the assessment results for that personal characteristic (personality, skills, interests or values). It is recommended that you take all four assessments, and then click “Composite Score” to see the list of corresponding occupations. Click the “Majors” tab to access the “What Can I Do With a Major in…” resource and read information about your possible career options. If you would like to print any of your reports, click “Printable View,” then print.

Individual Career Counseling
You are encouraged strongly to follow up with Career Services to discuss your assessment results and learn about additional steps you can take to make effective career decisions. Visit Career Services during Career Express hours. For current Career Express hours, go to www.usf.edu/career-services/. Our career counseling staff can help you choose a career and match it to a major, discuss job search strategies and interview skills with you, and critique your resume. Get to know us!

What is Your Career Plan?
The career planning and job search process is unique for each student, but the sooner you start, the better. If you are not sure what to do first, visit USF Career Services and talk to Career Counseling staff on a walk-in basis during our Career Express hours. We will assess your situation and make sure you get the assistance you need.

Note that when deciding on a major and a career path, it helps to understand yourself. You can start this part of the process by exploring the following areas:

Interests — Make note of activities, hobbies and academic subjects you enjoy.

Skills — Identify natural talents, acquired skills and academic activities in which you excel.

Values — Clarify work-related factors and life-style preferences important for your career satisfaction.

Personality — Discover your unique personal characteristics, work preferences, and decision-making style.
