

# *Career Hub*

Information and Updates for Students

## Recent Changes to our Office

This past Summer, our office underwent a complete strategic alignment and planning process based on Florida HB 1261 requirements.

One result of our realignment was a restructuring of our instructional support services around a portfolio of workshop offerings that are based on a Career Literacy curriculum.

This workshop-based Career Literacy curriculum provides students with a sequenced set of workshops to help you develop your career literacy and readiness skills.

Topics are broken out by level so you can gain a lot more from professional development than merely developing a resume or and interviewing skills...

# Career Hub Career Literacy Portfolio of Offerings

Through our sequenced career literacy programming, our Workshops are focused on specific topics, designed to help you build your skills for ***lifelong career success!***

Workshops are grouped by level and topic.

Levels include basic, intermediate and advanced and cover topics such as:

- Mastering the Basics
- Gaining Experience
- Engaging with Employers
- Exploring Grad School
- Launching Your Career

Please click below for our current Offerings Portfolio with Workshop topics and descriptions.

## How to take control of your career development with the Career Hub

We have offerings several times a day throughout each week making it easy for students to attend both in-person and virtual programming throughout the semester, without conflicts with classes or other activities.

Some of your instructors may ask you to attend Workshops as part of your coursework too.

## How Students can get involved in Career Hub Activities and Employer Engagement Events

- All students can attend the large semi-annual multi-Campus Career Fair and on-Campus open events
- Once students have completed Levels 1 and 2 of our Career Literacy programming, students can access our Signature employer-student engagement events and other advanced level, specialized activities as well as the Career Express program
