

Earn your DOCTORAL DEGREE in APPLIED BEHAVIOR ANALYSIS

USF is seeking applications for its Doctoral program in Applied Behavior Analysis

The emphasis of the ABA doctoral program is on the development of behavior analysts who are scientist-practitioners. Students graduating from the program will receive training through coursework, research, and teaching activities. The ABA doctoral program at USF has productive, enthusiastic faculty members. Doctoral students receive intensive training and individual mentoring to be college teachers and researchers. Faculty and students have diverse research interests including:

- Health, fitness, and sports
- Verbal behavior
- Community applications of behavior analysis
- Assessment and treatment of problem behavior
- School based applications of behavior analysis
- Translational research
- And more!

Meet Our Faculty...

Raymond G. Miltenberger, PhD, BCBA-D

ABA Program Director, Professor

Research: child safety skills, ABA applications to enhance sports performance and promote physical activity

Kwang-Sun Cho Blair, PhD, BCBA-D

Associate Professor

Research: function-based intervention, teacher training, family-centered intervention, school-based intervention, and early intervention

Sarah Bloom, PhD, BCBA-D

Associate Professor

Research: assessment and treatment of problem behavior; functional analysis and trial-based functional analysis, translational research, cultural and linguistic diversity

Catia Cividini-Motta, PhD, BCBA-D

Instructor and ABA Practicum Coordinator

Research: verbal behavior, assessment and treatment of problem behavior, skill acquisition, efficacy and efficiency of teaching procedures

Kimberly Crosland, PhD, BCBA-D

Associate Professor

Research: ABA and child welfare, behavioral assessment, caregiver training, developmental disabilities

Rocky D. Haynes, PhD, BCBA-D

Instructor and ABA Minor Program Coordinator

Research: community applications of ABA, ABA in educational settings, child welfare

Rachel Scalzo, PhD, BCBA-D

Instructor and ABA Online MA Program Coordinator

Research: online instruction, assessment and treatment of problem behavior

Diana Sadie Ginns, PhD, BCBA-D, LP

Instructor

Research: decreasing problem behavior in children/adolescents with severe behavioral difficulties and facilitating behavior change with individuals who support these children.
