

PhD

APPLIED BEHAVIOR ANALYSIS

UNIVERSITY of
SOUTH FLORIDA

College of Behavioral & Community Sciences
Child & Family Studies

WHAT WE DO?

The emphasis of the ABA doctoral program at USF is on the development of behavior analysts who are faculty and researchers. Students enrolled in the program will receive training through coursework, mentoring in teaching, and research activities.

WHY CHOOSE USF?

- 3-4 Year doctoral program
- Free tuition + \$26k-\$35k yearly funding
- Dynamic faculty with diverse research interest
- Diverse and talented students
- Teach, research, and experience life as a junior faculty colleague
- Live in the beautiful Tampa Bay area

DIVERSE STUDENTS AND FACULTY

USF hosts one of the most diverse groups of ABA faculty and doctoral students. Join a group of talented and diverse individuals.

TEACHING

Receive mentorship in teaching from award winning faculty and learn the skills to independently teach at undergraduate graduate levels both in-person and online formats.

RESEARCH

Conduct research with your advisor and collaborate with other faculty. Engage in scholarly work and publish with peers. Learn grant writing experience needed for a successful academic career.
