- Title:** *Evaluation of a Pilot Online Vaping Class for High School Students*
- Presenters:** Samantha Boddupalli, BS; Lauren Futral, MSW; Kathleen Moore, PhD; Sarah Sheffield MA, University of South Florida, Tampa, FL; Cindy Grant; Ellen Snelling, MS; Denise Birungi, MPH; Medinah Nabadduka, BS; Suen Morgan BS, Hillsborough County Anti-Drug Alliance, Tampa, FL
- Abstract:** Vaping among middle and high school students is a public health crisis that is especially concerning given recent links to COVID-19 risk. This study aims to assess the efficacy of an online version of an evidence-based vaping class and examine the relationship between vaping and mental health. A mixed-methods approach evaluates measures of vaping habits, knowledge, intention, depression, and anxiety. Results are presented with recommendations for improvement and discussion of the challenges of online learning.
