Education

Doctor of Audiology University of South Florida	Tampa, FL	August 2015 - May 2019
Bachelor of Science University of South Florida Major: Biomedical Science Minor: Public Health	Tampa, FL	August 2009 - December 2010

Research

Clinical Research Tampa General Hospital/University of South Florida	November 2020- Present
<i>Effect of Iron Supplementation on Iron Status and Neural Function in Very Low Birth Weight Infants</i> Collected and analyzed ABR data in order to help assess the correlation between total body iron, represented by ferritin and hematocrit levels, and ABR latency in preterm, iron-deficient infants receiving low versus high doses of enteral iron supplementation	
Quality Improvement Study Tampa General Hospital	August 2020- Present
<i>Targeted Cytomegalovirus Screening in a Level IV Neonatal Intensive Care Unit</i> Utilizing the Institute of Healthcare Improvement's Model for Improvement, assisted a multidisciplinary team with the creation of a standardized cCMV screening and follow up protocol in a level IV neonatal intensive care unit.	
Audiology Doctoral Project University of South Florida	Completed: February 2018
<i>Auditory Brainstem Responses for Normal Hearing Adults: Normative Data for University of South Florida Hearing Clinic</i> Collected data on young, normal-hearing participants with no suspected retrocochlear pathology to determine the ABR normative data specific to the equipment in the USF Hearing Clinic
