EDUCATION

DOCTOR OF AUDIOLOGY (AuD), University of South Florida, Tampa, FL **May 2019**
Doctoral Project (ADP): Evaluation of a Spanish Language Hearing Loss Toolkit for Self-Management

B.A., Major: Speech Language and Hearing Sciences, Minors: Linguistics and Spanish
University of Colorado, Boulder, CO, May 2015; Major GPA 3.96 GPA: 3.81, graduation with Distinction

STUDY ABROAD (February 2014 - July 2014)

Pontificia Universidad Catolica de Valparaiso, Located in Valparaíso Chile, South America,
Coursework: History and culture, language and art; Proficient in verbal, written and conversational Spanish

CLINICAL EXPERIENCE

UNIVERSITY OF SOUTH FLORIDA- Tampa, FL **August 2022 - Present**
Clinical Instructor and Audiologist

- Support of graduate level students seeking a doctorate degree in audiology degree. Integrate comprehensive academic and clinical training on evidence based clinical protocols.
- Key Achievements:
 - Develop and deliver clinical assistance programs for students in need.
 - Mentor students on their doctorate level capstone projects.
 - Build strong relationships with students via curriculum-based discussions.

FLORIDA ENT & ALLERGY (FENTA)- Tampa, FL **March 2021- August 2022**
Ear, nose, throat services offered in the Tampa Bay area. Patient services for both the pediatric and adult population included:

- Lead implant audiologist for FENTA (Cochlear Americas and Advanced Bionics)
 - Training manager for implant program expansion
 - Cochlear implant evaluations, activations, mapping and follow up services
 - Contact for all billing, scheduling and service related questions
- Evaluation and management of hearing loss and dizziness
 - Pediatric testing: Diagnostic testing using visual response audiometry (VRA) and conditioned play audiometry (CPA) with Otoacoustic emissions (OAES)
 - Hearing aid sales, revenue, programming and patient services
 - Comprehensive vestibular test battery including videonystagmography

ENT INSTITUTE- Atlanta, GA **May 2020- March 2021**
Starkville, MS (office permanently closed) **May 2019- May 2020**

Ear, nose, throat services offered in the greater Atlanta area.

Patient services for the pediatric and adult population in conjunction with supervision of extern include:

- Pediatric services; behavioral diagnostic testing using visual response audiometry (VRA) and conditioned play audiometry (CPA) techniques and objective measures of Otoacoustic emissions (OAES)
- Auditory Brainstem Response (ABR) testing- diagnostic and retrocochlear testing
- Utilization of a comprehensive vestibular test battery including videonystagmography, bithermal air calorics and electrocochleography
- Management and Operations of Hearing Center; hearing aid sales, revenue, programming and patient services

4th YEAR EXTERNSHIP **May 2018 - May 2019**
John Hopkins All Children's Hospital- Services provided for the pediatric population and their families at St. Petersburg main hospital campus, Tampa, New Port Richey and Sarasota outpatient locations.

- Hearing aids, FM systems, osseointegrated devices and cochlear implant programming and management.

- Auditory Brainstem Response (ABR) testing - screening and diagnostic
- Otoacoustic emissions (OAES)
- Behavioral diagnostic testing using visual response audiometry (VRA) and conditioned play audiometry (CPA) techniques
- Inpatient sedated ABRs and diagnostic measures in NICU and PICU
- Central Auditory Processing (CAPD) evaluations
- Craniofacial clinic, cochlear implant workshop, and international hearing programs (expedited interventions)

3rd YEAR CLERKSHIP

May 2017- May 2018

Gardner Audiology - Patient services for both the pediatric and adult population included diagnostic, intervention and management of hearing loss in a private practice setting.

Tampa Bay Hearing and Balance Center - Private practice ENT setting where pediatric and adult services include:

- Utilization of a comprehensive videonystagmography test battery including rotary chair diagnostic techniques.
- Electrophysiological measures (Auditory brainstem responses, electrocochleography, vestibular evoked myogenic potential)
- Hearing aids, cochlear implants, osseointegrated devices
- Repositioning maneuvers.
- Monitoring and management for patient pre- and post- surgical intervention

Tampa General Hospital - Outpatient and inpatient services include auditory brainstem response tests (ABR) as follow-up newborn hearing screenings, hearing aid evaluation, selection, fitting and follow up, adult and pediatric diagnostics and sedated ABRs.

UNIVERSITY OF SOUTH FLORIDA

May 2016 - May 2017

Student Clinician

- Pediatric Clinic- Performed diagnostic procedures, tests for Center Auditory Processing Disorders and made appropriate recommendations, as well as fit FM systems and hearing aids.
- Craniofacial Clinic- Performed audiologic evaluations and screenings on the pediatric population and provided appropriate recommendations.
- Cochlear Implant Clinic- Performed cochlear implant candidacy evaluation, device selection, programming and mapping for both adults and pediatric patients.
- Hearing Aid Clinic- Performed hearing aid evaluations, selections, fittings and follow ups.
- Aural Rehabilitation Clinic- Worked with patients with traumatic brain injury, tinnitus and central auditory processing disorder and made appropriate recommendations and strategies for more effective listening and communication.

OTHER EXPERIENCE

GRADUATE ASSISTANTSHIP- University of South Florida

Graduate Assistant (Spring 2016 - December 2017) Speech-Language Pathology Program Director, Dr. Carolyn Ford SPL-CCC, with class materials for Master's level Speech-Language Pathology program.

INTERNSHIP

BVSD-Boulder Valley School District-Hearing Assessment Team Member (Sept - Dec 2014)

Assist Educational Audiologist with hearing assessment on school age children in the elementary through high school. (Ages 6-18)

Personal Assistant to Darla Franz, Vice President of MED-EL (Sept 2014). Provided logistical support to cochlear implant company executive during two major conferences:

- **2014 American Academy of Otolaryngology (Orlando FL):** Assisted VP of MED-EL and attended the William F House group at the conference and presentations by Cochlear, MED-EL and Advanced Bionics regarding reliability of their cochlear implant products.
- **MED-EL 2014 Advanced Audiology Training Workshop (Chicago, IL)** hosted by MED-EL including recent updates to their software used to program cochlear implants, hands-on experience with the software, processor troubleshooting, and ALD connection
