

PROMOTING WELL-BEING

Annual Report
2019-20

UNIVERSITY of
SOUTH FLORIDA

College of Behavioral & Community Sciences

POINTS OF PRIDE

CBCS Promoting Well-Being

96% freshman retention rate

92%

of students graduate without excess hours

75% 4-year graduation rate

Goal of research is to
Bridge the Gap
between science and practice

4 AAAS Faculty Fellows
for outstanding contributions to research

approximately
\$30M
in funding annually from
new grants

300,000
hours of student community service
valued at over
\$7 million
per year

Diverse education abroad programs

Home to the
Louis de la Parte Florida Mental Health Institute,
a national leader in behavioral health research

Conducts high impact research, mainly in community settings **Research and Community Engagement**

We research some of the most pressing societal issues of our time.

- Behavioral Health
- Mental Health
- Disabilities
- Disparities
- Substance Abuse
- Crime
- Criminal Justice
- Juvenile Justice
- Social Inequality
- Violence
- Guns
- Cybercrime
- Education
- Hearing
- Speech
- Language
- Aging
- Veterans
- Child Welfare
- Trauma
- Quality of Life
- Vocational Rehabilitation
- Language & Literacy
- School Success
- Positive Behavior Support
- Multi-tiered System of Supports
- Systems of Care
- Autism
- Opioids
- Homelessness
- Aphasia
- Dementia
- Caregiving
- Palliative Care
- Teen Pregnancy
- Sleep Health
- Obesity
- Stepped Care
- Trauma Recovery
- Presbycusis

ACADEMIC PROGRAM

UNIVERSITY of
SOUTH FLORIDA
College of Behavioral &
Community Sciences

Enrollment 2019-2020

Undergraduate Majors

- 24** Aging Sciences
- 114** American Sign Language Interpreting
- 257** Behavioral Healthcare
- 1050** Criminology
- 283** Language-Speech-Hearing Science
- 27** Long Term Care Administration
- 201** Social Work

Doctoral Degrees

- 22** Aging Studies
- 15** Applied Behavior Analysis
- 58** Audiology
- 27** Behavioral and Community Sciences
- 19** Communication Sciences & Disorders
- 28** Criminology
- 3** Social Work (recently reinstated)

Master's Degrees

- 316** Applied Behavior Analysis
- 52** Child & Adolescent Behavioral Health
- 40** Criminal Justice Administration
- 14** Criminology
- 64** Cybercrime
- 13** Gerontology
- New** Marriage & Family Therapy (new program starting Fall 2020)
- 121** Rehabilitation & Mental Health Counseling
- 291** Social Work
- 210** Speech-Language Pathology

College of Behavioral & Community Sciences

Draft 2019-2020 Annual Report as of 4/30/2020

Points of Pride

- CBCS students have contributed over 320,000 hours of community service through internships, field placements and practicums valued at over \$8M.
- CBCS had 16 researchers in the top 100 grant awardees across all of USF.
- Several faculty in the college are conducting innovative research at the state, national and international level on the reduction, treatment and prevention of the Opioid epidemic in our communities.
- The Master's in Marriage and Family Therapy has been approved and will begin in the Fall of 2020.
- The Master's in Applied Aging Sciences has been approved as a new online program and will begin in the Fall of 2021.
- Our MS in Speech-Language Pathology and Doctorate of Audiology programs continue to have 100% pass rate on the national certification exam and 100% employment rate of graduates.
- Our master's level graduate students who take the Clinical Association of Social Work Boards examinations for social work license consistently have a higher total pass rate than the national average.
- Criminology ranks among the Top 10 Criminology and Criminal Justice programs in the United States by most rankings.
- CBCS completed revision of the college Governance Document per Consolidation.
- Research Council sponsored the Hillsborough County STEM Fair and awarded four elementary, one junior division, and one senior division award in a new category of behavioral sciences.
- First cohort of PhD students in Behavioral & Community Sciences enter doctoral candidacy.

Research and Scholarly Activity

- Contract and Grant proposals continues at high level with \$151,686,276 in 2018-19.
- Contract and Grant awards continues to grow with \$30,975,976 in 2018-19.

Child & Family Studies

- Dr. Chih-Chin Chou was selected to be a Fulbright Senior Research Scholar to conduct a research project in Taiwan during the year of 2018-2019. Her research project was aimed at better understanding the role of social support and its relationship to employment outcome for indigenous people with disabilities in Taiwan.
- CFS had 9 researchers in the top 10 grant awardees across all of USF.
- CFS had 6 researchers in the top 10 grant awardees in the College of Behavioral & Community Sciences.
- Dr. Heather Peshak George provided Keynote Address at the Behavior Education Technology Conference.
- Dr. Svetlana Yampolskaya was elected Chair of the Quantitative/Qualitative Café for the 2020 AEA Conference.
- Dr. Ray Miltenberger provides Keynote Address at Behavior Analysis Conference in Brazil.
- Dr. Rose Iovannone is serving as the President of the Association for Positive Behavior Support.

- Lise Fox, Jolene Ferro, Myrna Veguilla, and Meghan von der Embse are collaborating with Vanderbilt University and Hillsborough County School District early childhood classrooms to design and evaluate an effective teacher coaching approach for the use of evidence-based practices.
- Levin BL, Hanson A (Eds). Foundations of Behavioral Health. Switzerland: Springer Nature, 2020. (Book)

Communication Sciences & Disorders:

- CSD cooperates with premier research and clinical facilities both at USF and in the surrounding community. These partnerships include: USF Health Department of Neurology, USF Health Department of Otolaryngology, USF Health Byrd Alzheimer's Institute, Moffitt Cancer Center and Research Institute, James Haley Veterans' Hospital, and Bay Pines VA Healthcare System.
- So far this year, CSD has proposed \$9,491,616 for extramural funding. This funding follows an already \$2,235,199 awarded during this year. Our awards include:
 - Arnold, Michelle: "Development and Assessment of a Spanish-Language Toolkit for Hearing Loss Self-Management"
 - Bourgeois, Michelle: AphasiaBank: A Shared Database for the Study of Aphasic Communication
 - Chisolm, Theresa: Aging, Cognition, and Hearing Evaluation in Elders (ACHIEVE) Randomized Trial
 - Eddins, David A.: Efficient Measures of Central Auditory Processing; Toward a More Intelligent Hearing System: Making Sense of the Wearer's Head Movements; Electroacoustic and Quality Evaluation; Pediatric Dysphonia: Multidisciplinary Advances to Improve Voice Quality Outcomes; Aging Auditory System: Presbycusis and Its Neural Bases (Project 1); Aging Auditory System: Presbycusis and Its Neural Bases (Core A - Human Subjects)
 - Lister, Jennifer J.: Preventing Alzheimer's Disease with Cognitive Training: The PACT Trial
 - Lutfi, Robert: Individual Differences Listening in Noise in Clinically Normal-hearing Adults
 - Muscato, Nancy: RERC on the Tech for the Deaf/Hard of Hearing
 - Ozmeral, Erol: Bose Device Comparison 2.0; A Multi-Modal Streaming Approach to Understanding Aided Speech Perception in Noise
 - Walton, Joseph P.: Developing a Novel Therapeutic for Treating Tinnitus; Aging Auditory System: Presbycusis and Its Neural Bases (Core B); Aging Auditory System: Presbycusis and Its Neural Bases (Project 2); Aging Auditory System: Presbycusis and Its Neural Bases (Project 3)
- Over the year, more than 45 articles were published with more than 35 invited presentations scheduled. Some of the presentations were canceled as a result of the pandemic. These presentations include those given at numerous national and international professional conferences, as well as keynote speaking opportunities. At the ASHA conference alone, USF CSD contributed more than 25 posters, presentations, and invited talks.

Criminology:

- Ranked number eight with respect to publication productivity by faculty.
- In 2019, faculty published two books, four book chapters, fifty-four peer-reviewed articles (of which fifteen were clearly community engaged) and four technical reports. These publication appeared in eight of the top ten journals in the discipline; moreover, tenure-earning faculty were authors on all of these.
- The Department is home to three journals – The Journal of Crime & Justice (George Burruss, ed.) Policing: An International Journal of Police Strategies & Management (Lorie Fridell, ed.), and Justice Quarterly (Bryanna Fox, ed.).

- Dr Lorie Fridell is continuing her \$100K grant from the US Dept. of Justice, Office of Community Policing Services on “Expanding the Reach of Fair and Impartial Police Training.”
- Dr. Ráchael Powers and Dr. John Cochran are continuing their \$500 Bureau of Justice Assistance grant to the City of Tampa and the Tampa Police Department on evaluating the effectiveness of gunshot detection technology.
- Dr. Bryanna Fox and Dr. Joan Reid awarded CBCS Internal Grant for their proposal entitled Profiles of Child Sex Traffickers: A Forensic Behavior Analyst.
- Dr. Ráchael Powers and Dr. Bryanna Fox were awarded a \$750,000 grant from the Bureau of Justice Assistance to develop and evaluate a new crime gun intelligence center.

Dean’s Office

- Dr. Howard Goldstein was awarded a \$1.4M grant from the US Department of Education: Professional Development of an MTSS for Early Childhood Educators to Prevent Reading Disabilities. The purpose of this project is to develop and evaluate a professional development model for implementing an early literacy Multi-Tiered System of Supports (MTSS). MTSS is designed to enable early childhood teachers to prevent reading disabilities in children through screening, progress monitoring, and supplemental early intervention.

Mental Health Law & Policy

- Dr. Khary Rigg has been invited by the White House Office of National Drug Control Policy (ONDCP) to serve on an expert advisory committee. This committee is tasked with completing the development of the Opioid Misuse Community Assessment Tool, which provides county-level drug overdose mortality data, with overlays of socio-demographic and economic variables. Over the next several months, Dr. Rigg and other committee members will be assisting ONDCP by developing a "Rural Prosperity Index." The goal of this index is to identify a set of characteristics associated with lower or higher overdose mortality rates that will help local decision-makers plan and allocate resources. The panel is composed of a small group of national experts from the fields of addiction, mental health, public health, drug prevention, rural development, and community resilience.
- The Criminal Justice, Mental Health, and Substance Abuse Technical Assistance Center convened an expert panel for CJMHS Reinvestment Grantee Hillsborough County. The panel discussion focused on Adult Drug Courts and Medication-Assisted Treatment. MHLP faculty member Roger Peters, PhD, and national expert Robert Schwartz, MD, presented to an audience that included Hillsborough County Problem-Solving Court judges; the Public Defender's Office; the State Attorney's Office; Court Administration; and Hillsborough County's Strategic Initiatives, Human Resources, and Grants Management Office.
- Joshua T. Barnett, MHS, MA, ICCDP-Diplomate, a Doctoral Student was invited by the National Association of County and City Health Officials (NACCHO) to present to the Centers for Disease Control (CDC). As part of a Local Opioid Overdose Prevention and Responses grant, in partnership with the Florida Department of Health, this presentation encompassed community-level strategies to prevent opioid overdose, implementation of harm reduction initiatives, and linkage to care strategies including Medication Assisted Treatment (MAT) for those with opioid use disorder (OUD). The CDC provides technical assistance focused on rapid response and outbreak protocols to the opioid epidemic.
- In collaboration with Cambridge Health Alliance (CHA) and the Agency for Community Treatment Services (ACTS), Drs. Kathleen Moore (Co-PI), Holly Hills (Co-I), Khary Rigg (Co-I) and Ms. Amanda Sharp (Graduate Research Assistant) continues a three-year \$2.25 million Centers

for Disease Control and Prevention (CDC) grant to examine novel ways to reduce opioid overdose deaths. Dr. Zev Schuman-Olivier (Co-PI) from Cambridge Health Alliance (CHA) has conducted pilot studies of a technology-based mobile device application called MySafeRx.

- Dr. Kathleen Moore and Dr. Roger Peters continue as Principal Investigators for an R25 grant received from the National Institute on Drug Abuse (NIDA) to provide a Summer Research Institute (SRI) on addictions at USF/FMHI for undergraduate students (rising seniors). This 5-year grant in the amount of \$525k is designed to prepare the future pool of junior researchers in the field of substance abuse and co-occurring disorders through a 3-month program of seminars, intensive research mentoring, and completion of a research project related to addiction treatment or prevention.
- Hillsborough County was one of eight communities recently awarded funding from SAMHSA's Law Enforcement and Behavioral Health Partnerships for Early Diversion Grant Program. This funding will allow for continued funding of Hillsborough County's Pre-Arrest Intercept Jail Diversion Program (PIP). SAMHSA awarded the full amount possible for this award (\$330,000 per year for up to five years for a total of \$1.65 million). Annette Christy will serve as principal investigator of the evaluation under contract with Hillsborough County.
- Scott Young, PhD and Deborah Heller, MA, received another year of grant funding from the National Center on Homelessness among Veterans (VA) for \$41,641 to review, maintain, and update the Community Integration Specialist online training program. The training, which is approximately 22-hours long, teaches crucial competencies to formerly homeless Veterans who will serve as CIS's and assist currently homeless Veterans in obtaining housing and connecting with vital resources in their community. The training can be found at <http://vatrainer.cbcs.usf.edu/>.

School of Aging Studies

- The faculty published or had in press almost 100 peer-reviewed articles, most in high-impact journals, with a large proportion of the published articles including graduate students as first authors or co-authors.
- Faculty and graduate students presented their research at national and international conferences, including more than 30 presentations at the Annual Meeting of the Gerontological Society of America alone.
- Faculty submitted or were part of 17 grant proposals in 2019, mostly to federal funding sources, for a total of over \$19 million.
- Faculty continued their success conducting funded research, including a R01 from the NIH to Dr. Kathy Hyer to study outcomes of evacuation during hurricanes in skilled nursing facilities, a Donoghue Medical Research Foundation grant to Dr. Lindsay Peterson, and the Florida Department of Health Ed and Ethel Moore Alzheimer's Research Foundation award to Drs. Daniel Meng and Debra Dobbs, and a subcontract from the NIA to study cognitive outcomes in older Puerto Ricans.
- Overall, there are 10 active externally funded projects at the School of Aging Studies.
- Participation as co-PI or Investigator on almost \$10 million in grant funding to other units in the University.
- Annual research expenditures directly to the School of Aging Studies were over half a million dollars.

School of Social Work:

- International work by faculty: Jerome Galea co-led a training in June that taught community health workers living in coffee plantations in the State of Chiapas, Mexico how to deliver the depression intervention "Problem Management Plus" (PM+). Dr. Galea also traveled to Dubai, in June for the

launch of a multi-national implementation study called “EQUIP” (Ensuring Quality in Psychological Support). In August he led a delegation of four physicians from USF Health to Lima, Peru to explore a collaborative relationship with the Peruvian branch of the international nonprofit organization Partners in Health (known locally as “Socios En Salud” or SES). Dr. Iraida Carrion conducts collaborative comparative research with the Dr. Tania Estapé and Dr. Jorge Estapé of the Foundation for Public Education and Information about Cancer in Barcelona, Spain pertaining to older adults. Dr. Iraida Carrion works in partnership with Dr. Miriam Hurtado Pomares at the University of Miguel Hernandez (UMH) in Alicante, Spain regarding cancer among immigrant women. Dr. Pomares was awarded an International Mobility Grant from UMH and visited USF for seven weeks.

- New Research Lab: A newly created lab harnesses the strengths and skills of inter-professional teams at USF School of Social Work and the USF College of Public Health Harrell Center to study international and domestic issues related to gender-based violence and women’s health. The lab emerged from the long-time involvement of Dr. Guitele Rahill and Dr. Manisha Joshi (School of Social Work) in Haiti’s Cité Soleil and from outcomes of the GCE Round 20 Healthy Minds for Adolescent Mothers, funded by the Bill and Melinda Gates Foundation. A recently discovered covert form of non-partner sexual violence against girls and women in Haiti’s Cité Soleil slum that results in unplanned teen pregnancies, depression, anxiety, and trauma for teens experiencing such pregnancies, served as the current impetus for the lab.
- Research: Social work faculty continue to be engaged in research to learn better ways of improving the lives of others. Research sponsors include: the National Institute of Mental Health, the United States Department of State and University Grants Commission (UGC) India, Bill & Melinda Gates Foundation, University of Southern California, Baylor Medical School, University of Texas-Austin, Florida State University Child Welfare Institute, Norwegian Center for Violence & Trauma, St. Petersburg Catholic Charities, Florida Department of Children and Families, Florida Guardian Ad Litem Program, Heartlands for Children and CBCS HIV RIG Special Funding.

Faculty Talent Acquisition

- Mateus Santos, PhD, Assistant Professor, Department of Criminology. His areas of interest include crime and criminal justice trends and testing macro-level criminological theory.
- Micah Johnson, PhD, Assistant Professor, Department of Mental Health Law & Policy. His areas of interest include epidemiology focused on adolescent substance misuse.
- Nicoleta Zenn, EdS, Instructor, Department of Mental Health Law & Policy. Her areas of expertise include trauma-informed practices, crisis intervention, behavioral threat assessment, positive behavior supports, social justice, and children’s behavioral system of care.
- Gizem Hueluer, PhD, Assistant Professor, School of Aging Studies. Her areas of research interests include cognitive development and aging; subjective well-being; metacognition; social cognition; technology use in older adults; quantitative methods of longitudinal data analysis.
- Matthew Moore, PhD, Assistant Professor, School of Social Work. Dr. Moore’s primary research interest is in the assessment and treatment of stress and the long-term effects of cancer treatment. In particular, in the application of mHealth technologies to aid in treatment delivery and reduce disparities in treatment access.
- Pam Alvarez, DM, MSW, Instructor, School of Social Work. Her research and advocacy areas of interest include social work leadership, nonprofit leadership, juvenile justice, and gender equity.
- Hannah Gospodinsky, AuD, CCC-A, Clinical Instructor, Communication Sciences & Disorders, Hearing Clinic; specialties include diagnostics and treatment, cochlear implants.
- Ms. Kelli Gorjek and Ms. Natalie Mikkelson, Clinical Instructors, Communication Sciences & Disorders, Speech-Language Clinic.

Community Engagement

Child & Family Studies:

- Anna Abella and Monica Landers were scheduled to attend the Academy of Criminal Justice Sciences Conference in March to present on outcomes from a Police Mental Health Collaborative/Care Coordination model from our Evaluation of the Pinellas Integrated Care Alliance, which includes several community partners, including local government, a managing entity, the health department, provider agencies, and the sheriff's office.
- Much of the ABA student's research is with the clients served by our community partners. The research produces new knowledge, but it is applied research so it often benefits the clients that participate.
- Marilyn Stern is PI of grant NOURISH-T+: A Randomized Control Trial Targeting Parents Promoting Healthy Eating and Exercise Behaviors in Pediatric Cancer Survivors with Overweight/Obesity at four pediatric oncology clinics.
- Marilyn Stern is PI of grant ADAPT+: Optimizing an Intervention to Promote Healthy Behaviors in Rural, Latino Youth with Obesity and their Parents, using Mindfulness Strategies
- Marilyn Stern is PI of Mindfulness in AYA patients undergoing hematopoietic stem cell transplantation: A Pilot Project with H. Lee Moffitt Cancer Center & Research Institute.
- Tina Dillahunt-Aspillaga is Chair of the American Congress of Rehabilitation Medicine Military Veterans Networking Group International Program Planning Committee, Member
- Tina Dillahunt-Aspillaga is a member of the International Association of Rehabilitation Professionals (IARP) Academic Advisory Council
- Tina Dillahunt-Aspillaga is a member at large of the National Rehabilitation Association Board
- Tina Dillahunt-Aspillaga is a board member of the Florida Rehabilitation Association
- Rick Weinberg gave an invited talk at the American Cancer Society Making Strides Against Breast Cancer walk, entitled, Positivity for Survivors.
- Rick Weinberg gave a presentation/workshop for Starting Right, Now entitled Starting Right Relationships, Now and Forever More.

Communication Sciences & Disorders:

- Dr. Mike Barker (in collaboration with Dr. Howard Goldstein) conducts research to improve reading outcomes for at-risk students within the school systems in the Tampa Bay area.
- Dr. Michelle Bourgeois (in collaboration with doctoral students Vanessa Burshnic, MS and Alyssa Lanzi, MS) conducts research on effective clinical interventions to improve the quality of life of persons with cognitive-communication impairments and their caregivers.
- Dr. Nathan Maxfield conducts research on novel interventions for people who stutter that integrate findings from studies of both language and cognitive processes with investigations of brain electrophysiology.
- Clinical instructors engage in in-depth evidence-based interactions in Florida area schools. These interactions result in numerous levels of academic and non-academic presentations, both in the schools and in professional settings. For instance, clinical and academic faculty partnered to present several evidence-based presentations at the ASHA convention in Orlando.
- Other presentations were offered to groups such as Tampa BRIDGE, Tampa Stuttering Association, Bradenton Sertoma, and the Florida Department of Health.

- ASL Interpreting and Deaf Studies instructors presented on the collaboration between Deaf and Hearing instructors in all settings, including in community settings.

Criminology:

- Dr. George Burruss - "Understanding the Impacts of Policing Strategies and Practices (Beyond Crime Reduction)". Consultant. Champaign-Urbana Police Department.
- Dr. Richard Dembo Health Coach Services at the Tampa Juvenile Assessment Center. Funder: ACTS.
- Dr. Richard Dembo - "Culturally Modified Family Based Therapy for Haitian Youth and Their Families in South Florida". Co-Investigator. NIH/NIDA.
- Dr. Bryanna Fox "Addressing Prolific Violent Offenders and High Level Drug Distribution Networks through Intelligence Led Policing and Social Network Analysis". PI with the Pasco Sheriff's Office. U.S. Bureau of Justice Assistance (BJA) for the Smart Policing Initiative.
- Dr. Lorie Fridell - "Advancing Fair and Impartial Policing Through Training". Director. Funded by the US DOJ Office of Community Oriented Policing Services.
- Dr. Kathleen Heide - Office of the Public Defender - 13th and 5th Judicial Circuits, Florida, as well as services provided to Indiana, and County of San Diego, CA. Office of the District Attorney, Lehigh County, PA. Consultant.
- Dr. Ráchael Powers - "Shotspotter and the Tampa Police Department". With Tampa Police Department representing the Middle District of Florida. US. Department of Justice, Bureau of Justice Assistance.
- Dr. John Cochran - Shotspotter and the Tampa Police Department". With Tampa Police Department representing the Middle District of Florida. US. Department of Justice, Bureau of Justice Assistance.

Mental Health Law & Policy:

- The Florida Medicaid Drug Therapy Management Program for Behavioral Health monitors psychotherapeutic medications prescribed to children/adolescents and adult Florida Medicaid recipients. The Program is legislatively mandated (Ch.409 Florida Statutes). The goals of the Program are to: improve the quality of care of behavioral health drug prescribing practices, promote the use of evidence-based psychotherapeutic medications, reduce clinical risk, and lower prescribing drug costs. The Program conducts studies designed to inform policy regarding the use of psychotropic medications within the state of Florida.
- MHLP hosted three days of training on the OnTrack evidence-based model of early psychosis treatment. To our knowledge, this is the first OnTrack training in the State of Florida and was attended by representatives from DCF - Tallahassee, Central Florida Behavioral Health Network and Aspire Health in Orlando, along with Tampa's new early psychosis team (Healthy Minds) based at Success for Kids & Families in Tampa.
- Florida's Twelfth Judicial Circuit, which includes Manatee, Sarasota and Desoto Counties is implementing a Trauma-Informed Community known as "Peace 4 Manasota." This collaboration is spearheaded by the Suncoast Regional Office of the Florida Department of Children and Families and local county governments. Joshua T. Barnett, PhD Candidate in the Department of Mental Health Law and Policy, fund-raised and organized a Continuing Medical Education/Continuing Educational Unit (CME/CEU) event for local physicians, nurses and clinicians to learn more about trauma-informed care practices. Amber Gum, PhD presented the 1.5 hour CME/CEU to 33 attendees on the topic of "Adverse Childhood Experiences in Healthcare Settings: Trauma-Informed Care Practices.

- In honor of his retirement, Mark Engelhardt received a Commendation from the Hillsborough County Board of County Commissioners at their December 4th meeting. As the Director of the University of South Florida's Criminal Justice, Mental Health and Substance Abuse Technical Assistance Center, Mark's 44-year career has focused on advancing systems to improve the lives of people experiencing homelessness, mental illness and substance use disorder. His commitment to this work was highlighted by Commissioner Sandy Murman (District 1), with specific emphasis on his role as a state and national expert and champion of the Housing First model and longstanding involvement in the Hillsborough County Behavioral Health Task Force.
- The Criminal Justice, Mental Health and Substance Abuse Technical Assistance Center (TAC) facilitated a Sequential Intercept Mapping (SIM) in Martin County in January. The SIM assessed Martin County's existing service systems and identified strengths and gaps for adults with mental health and substance use disorders in or at risk of entering the criminal justice system. More than twenty community partners ranging from judges, law enforcement, public defenders, treatment providers, and the school district participated in the SIM and identified several goals and recommendations for Martin County. The TAC will continue to provide assistance to Martin County as they work towards addressing priority areas related to the development of a mobile crisis response team, enhancing case management services, expanding the availability of treatment services, exploring the development of behavioral health urgent care services, and increasing housing access for the SAMH target population.
- MHLP professors Drs. Amber Gum and Larry Schonfeld were recently awarded a two-year grant from the Retirement Research Foundation. Working closely with the Senior Connection Center (SCC), the five-county Area Agency on Aging for the west-central Florida region, they will conduct data analyses and qualitative interviews to determine outcomes and risk factors for older adults screened by the SCC who receive aging services or are placed on waiting lists. Other collaborators include Co-Investigators Drs. Kyaien Conner (MHLP) and Kevin Kip (Public Health), consultant Ohad Green (Oxford University), MHLP's Policy and Services Research Data Center, the Florida Department of Elder Affairs, and the National Association for Area Agencies on Aging.
- In November, the Federal Office of Rural Health Policy spotlighted rural health with a twitter chat on rural substance use disorders, as part of National Rural Health Day. Khary Rigg was one of five panelists selected to participate in the twitter chat on substance use disorders and take part in promotional activities. As part of the event, he and other panel members were asked to provide commentary on the unique challenges people in rural communities face regarding substance use disorders, as well as answer questions from the public.
- MHLP houses the Policy and Services Research Data Center (PSRDC), directed by Charles Dion. The PSRDC informs state and local public policy and program development through the timely compilation, integration, and analysis of large-scale administrative and other data. The PSRDC strives to be a leader in management, organization, and dissemination of information on health and mental health issues.
- The Child Welfare Training Consortium provided 10 cycles of pre-service training with 177 case management trainees. There were also 136 In-Service training sessions with 894 attendees, for a total of 264 hours of training. The Trainer Coaching and Competency Program, within the Training Consortium, held 6 classes of "Train the Trainer" with 61 statewide child welfare trainers. Six classes of In-Service workshops for child welfare trainers were also facilitated with 46 child welfare trainer attendees statewide. Three trainers from the Training Consortium conducted conference presentations at the annual child protection summit in December of 2019.

- Nicole Williams, Jessica Carter, and Erika Williams were selected and presented at the 2019 Child Protection Summit hosted by the Florida Department of Children and Families in Orlando in December. All three trainers are with the USF Child Welfare Training Consortium. Presentations included topics on Biased-Based Behaviors in Child Welfare, Purposeful Home Visits, and the Importance of Engagement.

School of Social Work:

- Dr. Jerome Galea's research and scholarship is notably community-engaged. Dr. Galea is Chair of "Socios En Salud-II," a new non-profit organization in Peru which will provide future service, research and training capacity at the global level. He is a Volunteer researcher (coaching agency staff on the implementation of depression screening) for the NGO Epicentro in Lima Peru; SOMOSGAY in Asuncion, Paraguay; and the Bridge Clinic at USF. He is a Member of International Rectal Microbicides Advocates, an Advisor for Gay Latino, a health and social rights advocacy group. He is Co-chair for The Union – TB/Mental Health Working Group. He is a member, The Latin American Task Force for PrEP Scale-Up. Dr. Galea is Academic Editor for the peer-reviewed journal PLOS ONE.
- Dr. Manisha Joshi continues to provide advisory support to Research Institute of Worlds Ancient Traditions Cultures and Heritage in Arunachal Pradesh India.
- Dr. Manisha Joshi is in the task group of South Asian Social Workers, a newly established network primarily comprised of social work faculty of South Asian origin in US-based universities.
- Dr. Manisha Joshi is working with USF's Country Advisor in India to put together write-ups about the MSW and MSW/MPH programs at USF that can be posted in higher education supplements published by leading newspapers in India.
- Dr. Joshi and Dr. Rahill are collaborating with the Hindu Family Support Service (<https://www.hfssusa.org>), a non-profit organization that works with South Asian immigrant families in the Hillsborough county region. Together with HFSS, Drs. Joshi and Rahill are designing a research study to measure the prevalence of domestic violence among the South Asian community in the Hillsborough County region. This study will lead to valuable publications in the future and will help the HFSS to apply for funding to set up services that cater to the specific needs of the South Asian community.
- Dr. Joshi and Dr. Rahill are collaborating with faculty and students at the Indian Institute of Technology Gandhinagar (IITG), India, a prestigious technology institute in India. They led an information and advising session on "Qualitative Research Methods" via skype for three PhD students (Social Epidemiology) at the IITG. Their advisor, Dr. Malavika Subramanyam, is a physician who also has a PhD in Social Epidemiology from Harvard University. These collaborations will likely lead to valuable publications in the future.
- Dr. Rahill and Dr. Joshi, in collaboration with multiple colleges/departments/Centers within USF (e.g., CBCS, ISLAC), organized the screening of the film "Healing a Nation (Haiti): Twoub Mantal" on February 21st, 2019 at the Patel College of Sustainability. The screening, followed by a panel discussion and Q&A session, was attended by, more than 100 community members and stakeholders from the Tampa Bay region.
- Dr. Guitele Rahill continues to serve on the Cultural and linguistic competency (CLC) State committee for the Florida Children's Mental Health System of Care (CMHSOC) Expansion Project of the State of Florida Department of Children and Families.
- Dr. Guitele Rahill continues to be a member and contributor to the Haitian Association Foundation of Tampa Bay (HAFTB).
- Lori Rogovin serves on the Public Policy Committee of the United Way Suncoast and Hillsborough County Sexual Assault Response Team.
- Dr. Simmons continues as the Social Work Faculty Advisor at the USF BRIDGE Healthcare Clinic.

- Melissa Thompson continues to provide clinical supervision for social work students in the clinic. The BRIDGE clinic is an interdisciplinary student-run clinic, which brings together students and faculty from Medicine, Pharmacy, Physical Therapy, Public Health, and Social Work to provide free comprehensive health care to uninsured patients in the University Area Community.
- Dawn Brown served on the NASW Delegate Assembly which worked updating the NASW policy statements in *Social Work Speaks*.
- Dawn Brown continued to serve as the NASW-FL Legislative Committee Chair and as a member of the NASW-FL PACE (Political Action for Candidate Election) committee.
- Dawn Brown continues to serve as a mentor to an undergraduate student in the Black Faculty and Staff Association Mentoring Program.
- Dr. Sondra J. Fogel coordinated and engaged social work students in the 2019 PIT count.
- Dr. Sondra J. Fogel, a member of the Social Work Homeless Initiative, and as liaison for the USF School of Social Work to the National Center on Excellence in Homeless Services has formed a Work Group to support and strengthen social work leadership and services for homeless adults and children. Members of this task group include social workers across the state. One of the goals of this Work Group is to focus on promoting opportunities for faculty to build their familiarity with homeless issues and promote and support student interest to learn about homelessness.
- Dr. Sondra J. Fogel accepted an appointment to the Tampa/Hillsborough County Continuum of Care Executive Planning Committee as an At Large Member to address homeless issues in Hillsborough County. It is a two-year appointment with the possibility of renewal.
- Dr. Alison Salloum continues to provide research consultation and workshops on *Stepped Care*, an evidence-based TF-CBT approach, in Norway.
- Dr. Guitele Rahill served as a consultant on the documentary film that was featured at the 2018 APA Film Festival in San Francisco, California. The film, *Culture Clash* comprises dialogues in United States Caribbean communities regarding immigration and its impact on second generation immigrants. *Culture Clash* is filled with riveting interviews of second-generation Caribbean immigrants and the challenges they face in holding to their family heritage while embracing American culture. Both Dr. Rahill and her daughter, Kirah Zoellner served as discussants. The American Psychological Association received a record 2,721 entries and *Culture Clash* was among only 23 films that were selected for screening.
- Dr. Iraida Carrion serves on the editorial boards of the *Journal of Palliative Medicine*, *American Journal of Hospice and Palliative Medicine*, *Journal of Social Work in End-of-Life & Palliative Care* and *Health and Social Work*.

Institutional Reputation

Program Rankings:

- The Rehabilitation & Mental Health Counseling program ranked 27th among *U.S. News & World Report's* Best Graduate Schools for Rehabilitation Counseling.
- The Department of Criminology ranks among the Top 10 Criminology and Criminal Justice programs in the United States, number 8 with respect to publication productivity by faculty, and #22 in *US News and World Report*.
- CBCS Faculty Most Influential Criminologists in the World: According to Ioannidis, et al. (2019, *PLOS - Biology*), Drs. Michael Lynch and John Cochran (Criminology) and Dr. Norm Poythress (MHLP) were listed among the "most influential criminologists in the world". Out of 6,880,389 scholars worldwide across 22 fields and 176 subfields, they were among the approximately 105,000 identified as the most influential,

269 of whom were other criminologists. This placed them in the top 1.5 percent (98th percentile) of all scholars across all disciplines worldwide.

- The School of Social Work program was ranked #19 out of 361 schools nationwide and #1 out of 10 colleges in the state of Florida by *College Factual*. In 2019 the BSW program was cited in the list of the *Best of the Best* by *Human Services Edu*. In 2019 *U.S. News & World Report* ranked the School # 70 (tie) out of 262 Graduate Schools. The online MSW program is featured in the Top 25 2019 national online college rankings (#22 for Best MSW Online Degrees and #21 for Most Affordable MSW Degrees) by *Guide to Online Schools*. The MSW online program has been ranked in the Top 10 by the *Criminal Justice Degree Hub*. *Human Services Edu* included the MSW at USF online program on the list of the 25 Best Fully-Accredited Online MSW programs in the nation.
- *US News and World Reports* continues to list the USF AuD program as #17 and our Master's in Speech Pathology as #55.

Faculty Awards:

- Dr. Michelle Bourgeois was elected AAAS Fellow in the Psychology Section for distinguished contributions to the field of cognitive communication disorders, particularly for pioneering research and development of therapies for dementia patients and their caregivers. Dr. Bourgeois has made significant advancements investigating behavioral treatments for persons with neurogenic cognitive-communication disorders (i.e., dementia, TBI, MCI) as well as training for their caregivers. She was one of the first to discover that aging people with memory and cognition impairment do not lose their ability to read or communicate entirely.
- Dr. Julianne Serovich was elected AAAS Fellow in the Medical Sciences Section for distinguished contributions to the medical sciences, particularly for the discovery and development of interventions to reduce the spread of HIV. Dr. Serovich's groundbreaking research examined the relationship between HIV disclosure and the sexual and mental health of HIV-positive individuals. She discovered that issues of disclosure for those living with HIV are different by gender, and revealed links between an HIV-positive individual's disclosure of their status and subsequent psychological and behavioral changes.
- Dr. Elizabeth Cass received the CBCS Outstanding Undergraduate Teaching Award.
- Dr. Ryan Henry received the CBCS Outstanding Service Award.
- Dr. Michael Leiber received the CBCS Outstanding Service Award posthumously.
- Dr. Khary Rigg received the CBCS Outstanding Research Accomplishment Award.

- Carolyn Jewett, USF Outstanding Staff Award.
- Maura DeJesus, Lorna Henley, Telisha McKenzie, and Selecia Watson, Child & Family Studies, 2019 USF Outstanding Staff Team Award.

Alumni Development

- CSD continues to connect with alumni. Our SLP and AuD programs provide CEU learning opportunities for alumni in conjunction with annual open house events (now offered online).
- The ITT program, in conjunction with CSD's Hands on USF, has begun offering an Apprenticeship Program to alumni. This program allows alumni to work for Hands on USF in low-stakes interpreting assignments. The alumni earn a small salary and get access to frequent feedback and skills development activities.
- The Deaf Studies/ITT program partnered with the ASL Living Learning Community and the ASL Bulls student organization to host the our second "International Day of Sign Language." The event hosted an international guest speaker and provided an opportunity for current students and alumni to connect with one another.
- At the ASHA convention, CSD hosted a large open house for Alumni. We had over 200 people in attendance, which doubled the number of attendees at the next largest open house.

- The School of Social Work held a Scholarship Breakfast Fundraiser raises funds for the Social Work Student Scholarship Fund. The Breakfast Celebration was well attended this past year. Student leaders also presented on their unique stories in the pursuit for social justice. During this time alumni, friends of social work and faculty contributed to the social work student scholarship fund to build the scholarship fund past endowment level of \$34,000.
- The Department of Criminology held the eighth annual Wall of Fame event honoring 8 individuals, with over 75 persons in attendance.

Fundraising/Development Activities

- In 2019, CARD and The Learning Academy created the Karen A. Berkman Innovation & Autism Fund through the USF Foundation. The purpose of this Foundation account (530063) is to champion innovative and special projects related to Autism. In the few months since its inception, the fund has received \$8,591.
- The Tampa Interbay Rotary Club presented a check for \$19,000 to support the Center for Autism & Related Disabilities and the Applied Behavior Analysis Program. The annual event has raised over \$200,000.
- One new partner, Reliance Health, has provided a donation of \$100,000 to support research and clinical collaboration with their concierge medical services in Polk County.
- CSD was honored to receive a gift from the Fred Murray Estate in the amount of \$150k. The Frederick P. Murray Endowed Fund will be used to support research and clinical activities related to stuttering.
- The School of Social Work Student Scholarship Fund (#530047) was established in 2016. This fund was established to provide merit based financial funding to students at all program levels in the School of Social Work. The goal of this scholarship is to help support the educational journey of students in our program so that they can continue to make a difference with the individuals, families and communities we serve. This fund has reached an endowment level due to the generous support of our alumni, community partners, faculty, staff and students. By making a difference we will graduate social workers who continue to Engage, Educate and Empower others.
- Dr. Leonard Territo, Dr. Jamil Jreisat, Police Chief Rob Vincent, Dr. Carl and Cynthia Hawkins, and the MACJA Cohort Challenge have each renewed their annual gifts supporting graduate students in the MACJA program.

Other Revenue Generating Activities

- The Registered Behavioral Technician (RBT) training program had 410 registrations, \$65,650 to date.
- Hands on USF, CSD's in-house interpreting agency, continues to expand the opportunities offered to our interpreting interns while simultaneously increasing the amount of revenue that the program generates.
- The college formed a Revenue Diversification Committee whose mission is to examine revenue streams in the college with the goal maximizing diversity in funding.
