TRAINING MATERIAL DEVELOPMENT

Christy, A., & Guether, C. (2016). Baker Act Online Data Entry Portal (BAPortal) User Manual. Created in 2014 with funding from the Florida Agency for Health Care Administration (AHCA).

Christy, A., Ringhoff, D., & Rhode, S. (2017). Baker Act Data Submission Manual. Created with funding from the Florida Department of Children and Families. As of 2017 the 125+ Baker Act Receiving Facilities statewide may now submit forms via the mail, uploading forms/data, or entering data into the BAPortal. This manual describes these processes.

As principal investigator of our Department of Children & Families (DCF) funded contract for Baker Act Training & Consultation, worked with a team of experts/staff to develop and offer web events and online training, as well as to update the content of training manuals. There is also a presentation guide of Power Point slides produced for each for the live training for which these User Reference Guides are used.

2014 Baker Act User Reference Guide: The Florida Mental Health Act. (2014). Tallahassee, FL: Department of Children and Families, Mental Health Program Office; Tampa, FL: University of South Florida, Louis de la Parte Florida Mental Health Institute. (518 pages) and accompanying Power Point used for live training

2011 Baker Act User Reference Guide: The Florida Mental Health Act (2011). Tallahassee, FL: Department of Children and Families, Mental Health Program Office; Tampa, FL: University of South Florida, Louis de la Parte Florida Mental Health Institute.

This DCF training contract was also used to fund our development of materials for a statutorily required training for staff working at Assisted Living Facilities that had the Licensed Mental Health license. A train the trainer event was coordinated (trainer: Laurie A. Weber, MSW, LMHC) using these materials in May 2013.

Assisted Living Facilities Training for Limited Mental Health Licensure (2012). Department of Mental Health Law & Policy, de la Parte Florida Mental Health Institute, University of South Florida with funding from the Florida Department of Children & Families (268 pages)

The DCF Training & Consultation contract included Web Events on a) seclusion & restraint, b) suicide prevention, c) Marchman Act/co-occurring disorders and d) trauma. We identified experts, worked with them to create the training agenda/plan, and supervised staff to coordinate and hold the Web Event. The recorded versions of these web events were then put online. This contract also included maintaining, providing support for, updating online and coordinating continuing education credits for training modules developed in prior years via DCF funding for:

- Introduction to Baker Act
- Emergency to Medical Conditions
- Individual Rights & the Baker Act
- Law Enforcement & the Baker Act
- Long Term Care & the Baker Act
- Minors & the Baker Act
- Suicide Prevention
- Guardian Advocate (approved by certain Judicial Circuits)

Changes were made to Florida's Firearms Statute via House Bill 1355, which took effect July 2013. In late 2013 to early 2014, we worked with consultants and agency staff from DCF to edit and produced a 27-page document that described these changes. Suggested forms were also included. Content for this document sprang from a Florida Department of Law Enforcement work group on this issue. These materials were provided to attendees of the DCF funded, live, all-day Baker Act training event we coordinated and held in spring 2014

Director of the Baker Act Reporting Center since 1998 (co-directed for the first several years with Paul Stiles). This Center receives statewide data on involuntary examination (i.e., emergency commitment), involuntary inpatient placement and involuntary outpatient placement/services (also known as inpatient civil commitment and outpatient commitment). It is the only such data center in the US to compile encounter level, client identified data on civil commitment. These Baker Act data were used for the technical reports listed on the next several pages. This work relating to the Baker Act was cited in the University of South Florida Application to the Carnegie Foundation for the Advancement of Teaching for elective Classification in Community Engagement.
