## CLINICAL EXPERIENCE

Independent Contractor Psychologist (Private Practice), Office of Disability Determination, Tampa, FL, 7/94-current. This position involves review of written materials and making disability determinations for SSI and SSDI.

Psychologist, Tampa Family Health Centers, Inc. I saw about five low income adults in individual therapy per week at this federally qualified inner city health center. I also supervised a USF psychology intern who also provided individual therapy at this site, 8/2005 to 8/2009.

Independent Contractor Psychologist (Private Practice), Charter Hospital of Pasco County, 8/90 - 6/92. This involved psychological assessment and report-writing with adolescent and adult inpatients.

Independent Contractor Psychologist (Private Practice), Group Therapist, Depression Group, Affective Disorders Program and Women's Program, Charter Hospital of Tampa Bay, 02/86 - 07/89. This position involved conducting five sessions per week of group therapy.

Private Practice, Clinical Psychologist, part-time, Tampa, Florida, 12/85 - 10/88. This practice involved individual psychotherapy with adults, adolescents, and older children.

Psychology Postdoctoral Fellow, Brown University Department of Psychiatry and Human Behavior,

Butler Hospital, 07/84 - 07/85. Clinical duties averaged 25 to 30 hours per week and included assessment consultation reports using personality, intelligence, and neuropsychological tests, outpatient group social skills training, inpatient individual psychotherapy, and outpatient individual psychotherapy. The remainder of this full-time appointment involved clinical research activities.

Private Practice, Clinical Psychologist (supervised), part-time, Blackstone Valley Psychological Institute, Woonsocket, RI, 12/84 - 06/85.

Psychology Intern, Brown University Clinical Psychology Internship Consortium, 07/83 - 06/84. The first four-month rotation was at Butler Hospital, a private adult psychiatric hospital. Duties included cognitive-behavioral and short-term dynamic individual psychotherapy with a wide variety of patients, and assessment consultation reports using personality, intelligence, and neuropsychological tests. The second rotation was at the Providence VA Hospital, and involved social skills training, family therapy, individual psychotherapy, and psychological assessment consultation with a predominantly schizophrenic inpatient population. The final rotation was at Bradley Hospital, a private facility that provided eclectic inpatient and outpatient psychotherapy for children and adolescents. Child personality and intelligence testing were also stressed. Consultation throughout the year with the Brown Student Center for Psychological Services was also part of the internship. Additional duties included: seminars, clinical research, patient progress reports, on-call patient admission evaluations, and long-term outpatient psychotherapy.

Therapist, Center for Counseling and Adult Psychological Services, PSU, 12/81 - 05/82. This graduate practicum experience provided short-term outpatient psychotherapy to the student population in conjunction with the Student Health Center.

Therapist, Psychological Clinic, PSU, 01/80 - 03/82. Approximately equal numbers of student and community clients were seen in individual therapy in this clinical practicum experience. Supervision included cognitive-behavioral, dynamic, client-centered, and eclectic approaches.

Therapist, Oregon Smoking Control Project, U. of O., 04/77 - 06/78. This project involved individual and group behavioral smoking treatment, including stimulus control, relaxation, response cost, and aversive procedures.

Summer Psychiatric Aide, Oregon State Hospital, Salem, OR, 06/76 - 09/76. This position involved interacting with patients, daily ward routine, transporting patients, and clerical work.

Marital therapy from a combined systems theory and cognitive-behavioral approach  
Psychosocial program development for severe psychopathology  
Psychological assessment

## RESEARCH INTERESTS

I am interested in applied clinical research, with a focus on both clinical issues and public policy for those most in need. Some current specific interests include: (1) SSA disability determination procedures; (2) program and outcome evaluation, (3) integration of poverty programs and mental health programs; (4) evidence-based practices; (5) psychosocial interventions for persons with severe mental illness; and (6) research methodology and statistics.
