

Non-Public Information

It's important for all employees, current and former, to know the types of confidential, non-public information prohibited from disclosure under the Florida Code of Ethics for Public Officers and Employees (the "[FCOE](#)") and [USF Policy 0-027](#).

This compliance-in-a-nutshell document addresses common questions on this topic and guides employees in doing the right thing; however, this guidance is not intended to substitute for an employee's consultation of official USF regulation or policy.

WHAT IS NON-PUBLIC INFORMATION?

Non-public information is any USF record which is exempt from the inspection and duplication requirements of Public Records law and/or which is protected against public disclosure by federal or state law. Examples of non-public information include, but are not limited to, student records, medical/psychological records, social security numbers, and other confidential information. Consult with your Supervisor for more specifics on what information is considered non-public information by your organizational unit.

WHAT DO I NEED TO KNOW?

Current and former USF employees are prohibited from disclosing nonpublic information for the personal gain or benefit of themselves or any other person or business entity.
