Beatlemania will be revisited in Steve Meininger’s The Beatles: In Our Lives.

Fine food connoisseurs should take note of Larry Canepa’s A Culinary Tour of France and Italy: A Culinary Tour of its Regional Cuisine. A new class with snacks and drinks at the JCC on Howard Ave will be Culture Cafe: A Taste of Italy with Joe Caravella. Start spreading the news and take Dennis Dundore’s Hidden Gems of New York City. Closer to Tampa will be the Civilian Conservation Corps at Chinsegut Hill with Ross Lamoreaux.

Pam Tyler will debut the thought-provoking Astrology: Persistence of Interest and Controversy. Doug Stowell offers Let’s Find Out Who You Are! and Are We a 10? US Rankings in Global Indicators. Political history students should consider Trump and the American Presidency with Paul Mack, and animal lovers will appreciate Life and Death: What We Learn from the Death of a Pet with Ron Hammerle and Dani McVety.

Over half the classes being offered by our returning faculty will be new classes, so take your time perusing the catalog and circle those that most pique your interest.

We have 18 NEW classes for you to explore:

- In the market for an inexpensive computer? Have you considered a Chromebook? Why Not? with Dave Smolinski. Speaking of computers, macOS for Beginners: Big Sur is back and Jane Adamson will introduce you to Evernote for Apple Computers.
- Photography enthusiasts are not forgotten with Donna McGrew’s Edit Your Photos with Microsoft Photos on your PC, and Doug Gatchell’s Google Apps: Photos.
- For Apple device members, join us online or face-to-face for What’s New in iOS & iPadOS 15?
- Michael Bice returns to show us the present capabilities and the promise of technology that helps us live independently and safely.

New Instructor Spotlight
Dave Smolinski’s engineering career spanned over 30 years at Digital Equipment, Compaq and Hewlett Packard. At these places, he focused on fixing technical problems and customer satisfaction. After retirement, Dave continued to help his neighbors with their multitude of computer problems. Dave has been an OLLI member for several years and serves as a technology moderator for our OLLI instructors.

And now, Dave is teaching his first course for OLLI this fall — Chromebook? Why not? Let Dave introduce you to an economical computer, the Chromebook especially if you are tired of PC updates, viruses, and other Windows issues. Come learn about why and how to use it. Bring your own Chromebook or play with one of ours!

We are grateful for your support during this challenging period of pandemic-fueled transition. If OLLI helps connect you to other interested and interesting people, if OLLI online means learning and community are accessible to you, if OLLI helps keep you sane, please let us know with your financial support.
OLLI-USF’s Shared Interest Groups (SIGs)

OLLI’s SIGs offer community and informal learning around a shared interest. They are open to OLLI members and we encourage you to give one or more a try! Each SIG has a contact person for more information; some are on hiatus.

**China SIG**
The China SIG fosters an appreciation for and understanding of the Chinese people and their customs, history, and politics. We celebrate Chinese traditional holidays, enjoy presentations, Chinese music and food. Beginning June 2020, we meet quarterly in Zoom sessions to hear presentations by China SIG founder Don Menzel and other speakers. For more information, contact Kun Shi (kunshi57@gmail.com) or Nancy Stuart (nlsflorida@hotmail.com).

**Community of Readers and Writers**
Writers know that having a reliable and trusted reader can strengthen writing. This group will review writing that has been through at least several drafts (no first drafts) and hear from local published authors. Meetings (via Zoom) are scheduled twice a month. For more information contact Liesse Chable, communityofwriters@aol.com.

**Food, Glorious Food!**
Are you interested in exploring Tampa’s food world and all that it represents? Come with us on a journey to investigate the world of food -- how it grows, where to buy it and where to eat it as we learn more through speakers, field trips and other presentations that are viable on the Zoom online platform or in person. For information, contact Becky Heimstead, rbh2174@aol.com or Jane Applegate, jappleg2@tampabay.rr.com.

**German Conversation SIG**
Sprechen Sie Deutsch? Practice German conversation in a friendly and welcoming environment. All levels welcome. We meet the 2nd and 4th Tuesdays of the month, from 1:00 to 2:30 p.m. For more information, contact Fred Gerlach, fggerlach@aol.com or Christine Basch, cbasch65@gmail.com.

**Ici on parle français!**
This group provides a place for Francophones to meet and discuss topics of interest in French. Zoom sessions will be held on the first Monday of each month. A basic knowledge of French is required, but all levels of speaking ability are welcomed. To join in, please contact Susan Goodwin sjgood@earthlink.net or Theresa Sokol tandrasysokol@gmail.com.

**OLLI Outdoors**
Meets second Thursday of the month, Sept.-May. Experience our public recreational lands and learn about the histories, flora & fauna, geologic features, and the challenges facing them. Hikes and events are not limited to Hillsborough County, but will include Southwest Florida Water Management District lands, state forests and state parks. This SIG is a collaborative effort.
effort with members taking turns leading, organizing and administering hikes, outdoor events and related programs. For more information email the SIG at Ollisoutdoors@gmail.com.

**OLLI Shutterbugs**
Do you like to take photos of people, places, and things? Join the OLLI Shutterbugs on photo outings to places like farmers’ markets, craft fairs, and many other venues in and around Tampa Bay. We have an outing about once a month from Sept./Oct. through June. We also meet every other month for a presentation to help you improve your photos! Rich Edwards (riche61844@gmail.com) leads us from November to April and Jean Nixon (giginixon@gmail.com) from May through October. Email either of us for more information.

**Online Games SIG**
Are you interested in trying online games on Zoom? Our Board/Card Games SIG transitioned to the Zoom platform during the Pandemic to keep up with the times. We meet the second Thursday of each month from 3:30-5:30 p.m. If you’re interested in joining us for fun with online games, contact Kathy Palmer at kpalmer22@tampabay.rr.com for more information.

**Operatunity**
Whether you are new to opera or an aficionado, join OLLI’s Opera SIG as we all explore ways to expand our knowledge and appreciation of opera. We meet monthly to enjoy interesting presentations and lively discussions about opera! Contact Derrie Perez (dbrperez@tampabay.rr.com) for more information about our “Operatunity family.”

**P-SIG: Politics Shared Interest Group**
Will begin meeting again on the second Wednesday of December 2020 from 1-3 p.m. Join us in a politics forum which features discussion topics and debates, as well as guest speakers. P-SIG members participate in activities that complement, enhance, and promote existing OLLI-USF Political Science and History classes. Open to OLLI-USF members and their sponsored guests. For more information contact our communications coordinator, Bill Sapper, at 813-994-3807 or tampabill@verizon.net.

**Talking Movies**
Love Movies? HATE the fact that many never make it to local screens? Join us; we’ll be selecting movies to view on our own, then gathering to talk about them. We meet via Zoom on the third Friday each month from 1:30 -3:00 p.m. Contact Richard Rogers for more information: richardcrogers@gmail.com.

**Write Time for Poets**
Welcome to your online poetry-writing community. Twice a month, join us in our videoconferencing room—your creative space. Work on your poems-in-progress and/or practice timed writing in response to prompts. We meet for 90 minutes on the 2nd and 4th Thursday each month from 2:00 p.m. - 3:30 p.m. Contact Cath Mason, cmason6@usf.edu for more information.

Doug Gatchell says that OLLI is like a food festival, you can sample all sorts of things. “I have taken classes in subjects I never dreamed of knowing anything about.”

Bharat Pathakjee, retired physician and member since 2012: “I feel privileged to meet people from different walks of life.” Bharat, is both student and instructor. He enjoys preparing for classes and was thrilled to be told that no matter what he taught, students would take his class.

Tempie Taudte –loved her Dulcimer classes because they were both fun and challenging. She also appreciated being able to learn Spanish.

Joan Watkins, tech moderator for OLLI classes, says a highpoint for her has been learning how to use her computer which she didn’t use in her medical profession. She is also pleased that she was able to take a German class. “I love everything about OLLI especially the people.”

Neil Cosentino loves the opportunity to write, read and share via the OLLI blog, OLLI Connects.

Jay Cortright “Technology Classes are much better than I expected, they start at the beginning and are tailored to my level. I appreciate having a book to use for reference after a course and having access to other OLLI members, as well as the instructor, for further clarification.” She likes the idea of Encore classes which gives her access to a recorded course for a few months to keep going over material.

Nancy Stuart says that life-story writing classes meant “I really got to know about people’s lives at a deep level because of their stories.” She thinks it wonderful to be able to be social with people and not just be in classes with them. She has enjoyed classes that met for lunch after class.

Pushpa Sreepally is excited to take classes, especially technology classes. She has been a member since 2004. Pushpa loves zoom: “it has been a blessing and enables me to keep learning and interacting.”

George Hyde was hooked into OLLI with the first class he took, Photoshop. “I had taken Photoshop classes before at a much higher price. The OLLI course for only $35, was excellent, very well prepared and presented, and included a manual.” He says he enjoys the fact that the people that you meet are very smart but also very welcoming.

Donna McGrew thinks Shared Interest Groups (SIGs) are “the best thing in OLLI.”

Osher Lifelong Learning Institute

OLLI Instructor, Bruce Gobioff “I am very satisfied with my experience on the OLLI Board.”

Mary Ettinger – loves gatherings, social events, interactive classes.

Opium to Opioids
The opium poppy's resin has been used throughout human history as a narcotic and as an analgesic. We’ll trace the history of opium and the Opium Wars during colonialism in the nineteenth century. From Wildlife Stress to Human Disease?
Stressors, natural and man-made, affect wildlife populations. When wildlife are reservoirs for pathogens, the effects of stressors on wild animals can have consequences for humans. After earning his PhD in Ecology and Evolutionary Biology from Princeton University, Dr. Lynn B. Martin started his own lab at USF.
