

The David C. Anchin Center for the Advancement of Teaching presents:

# REIMAGINING EDUCATION

Opportunities for Achievement, Equity & Justice in a Post-Pandemic World

## A Virtual Conference | December 3-5, 2020

The coronavirus pandemic underscores longstanding inequalities that exist in the educational system and serve as a barrier to achievement by all of Florida's children. The crisis precipitated by extended school closings and tentative reopening also provides an opportunity to change policy and practice to address these persistent issues and inequities.

This conference capitalizes on the sense of urgency created by the pandemic and seeks to launch enduring, transformative changes in the way education is provided to diverse populations in Florida schools, especially those from the most vulnerable families and communities.

### Meet the Keynote Speakers:

**Pedro Noguera, PhD**

Dean and Professor  
Rossier School of Education  
University of Southern California

**Joan Hughes, PhD**
