

FEBRUARY SESSION

WHOLE BRAIN TEACHING®

FEBRUARY 25, 2023 // 9:00 AM – 4:00 PM

USF College of Education, TECO Hall (Tampa campus)

Registration Fee: \$95

Register at: tinyurl.com/anchinwbt

What you get: An introduction to what many K-12 teachers call “teaching heaven” by being dropped into a simulated Whole Brain Classroom as your learning environment for the day, a tasty box lunch, free Whole Brain teaching resources for implementation, and a fun paced day with like-minded people.

Whole Brain Teaching® (WBT) is one of the world’s most popular classroom management and instructional systems. WBT promotes a high-energy, hyper-focused method where teachers use game-like challenges, key words, and motivational methods, while eliciting continuous spoken responses from their students to keep them fully engaged every minute. WBT’s singular goal is connection. Connect with your students in ways you never imagined, as they learn to connect with you and those around them in rich and caring ways. This is a fast paced, high energy session designed to give you the tools to transform your classroom either face to face or virtually.

THE WHY – Rationale & Research

- Whole Brain Teaching® maximizes student engagement by focusing on mimicry, which is a natural way for the brain to learn.⁶

THE HOW – Top 3 Learner Objectives for Participants

- Learn and practice delivering the basic components of Whole Brain Teaching® including the magic five: Class-Yes, The Greeting, Mirror Words, Teach-Okay, and 1 point 2 times.
- Learn how to connect with students who exhibit challenging behaviors via the Little Rascals approach.
- Explore the vast resources for customizing and growing your Whole Brain Teaching® and management toolbox.
