

FREE VIRTUAL WORKSHOP SERIES

Evaluation of Virtual Simulation in Doctor of Pharmacy Progression Exam

Saturday, March 26, 2022 // 8:00–9:00 a.m. EST

Presented by:

Davina Merritt DeVries, M.Ed.

dmdevrie@usf.edu

As a Learning and Development Manager, determining the effectiveness of instructional material is of the utmost importance. This is especially true for assessments used to determine whether students will progress to the next academic year. This presentation will discuss the need to evaluate whether the inclusion of a virtual simulation aids in the understanding of student retention of knowledge.

For access to this virtual workshop, please contact

Dr. Liliana Rodríguez-Campos
