

FREE VIRTUAL WORKSHOP SERIES

SURVEY CONSIDERATIONS IN EVALUATION

Saturday, January 23, 2021 // 12:00 p.m.

Presented by:

Will Carpenter

wcarpent@usf.edu

Surveys are one of the primary data collection tools in evaluation. It allows us to gather information from participants in a flexible capacity, that is not constrained to time and location, unlike interviews and focus groups.

In this workshop, we will discuss some considerations to employ when you are creating surveys for your next evaluation.
