Pathway to Computing Online Graduate Certificate

A program for college graduates with a non-computing bachelor's degree.

Includes competencies such as computer programming, algorithms, system design, computer networks, and more.

Certificate graduates are well-positioned to transition their career to computing.

Students who successfully complete the certificate program are guaranteed entry into USF's MSCS program, with no GRE required.

MSCS graduates can find success in a wide range of careers, including:

- Software Engineering
- Systems and Infrastructure Engineering
- Network Engineering
- AI/Data Science
- System Architect
