Dear CSE Students:

Welcome to the fifth newsletter of the Fall 2018 semester.

**Message from the UG Advisor:** IMPORTANT: October 27th is the last day to withdraw with no refund and no academic penalty. Remember, withdrawing from a course is considered an attempt and may contribute to your excess hours count. Upper-level students may withdraw from up to two courses unless petitioning to withdraw from more due to exceptional circumstances. This is something you should discuss with an advisor.

**Registration for spring will begin at the end of October.** Avoid the rush at the end of the month by scheduling advising now while our calendars are relatively open. Planning now will help you avoid waiting in line once registration starts. **Check your Spring registration time in OASIS.** Register as soon as you can using the schedule planner. Don’t wait for Fall grades to register for Spring courses!!!!!!!

**Message from the Grad Program Assistant:** Registration for Spring 2019 will begin October 29! Please make sure you log in via OASIS to check your time ticket for registration. If Fall 2018 was your first semester and the Office of Admissions was still in need of your official transcripts, please make sure that you have submitted them. Note that if they have not received these documents, you will be prevented from any registration activity. **Those students graduating this Fall 2018, please make sure that you have submitted your graduation checklists and that you have applied for graduation via OASIS.**

Attached are announcements for the following (please note that this listing does not imply University or Department endorsement):

- Society of Competitive Programmers Officer Board Elections **Deadline October 29, 2018**
- Raytheon Information Session on **Thursday October 25, 2018 at 6PM in ENA 105**
- Raytheon Job Opportunities List for Internships and Full-Time Positions
- CRD seeking SUS students or recent grads for Policy Fellow Positions **Deadline October 26, 2018**
- Carnegie Mellon University Heinz College Paid Summer Fellowships for 2019
- Florid Metropolitan Universities Virtual Career Fair
- Pasco Sheriff’s Office Position Description for Software Developer II
- Johnson and Johnson TDC Associate Salesforce Developer Position
- Johnson and Johnson Software Engineer Position

Regards,

Ken Christensen
Professor and Associate Chair of UG Affairs
Society of Competitive Programmers Officer Board Elections

Hello everyone!

The Society of Competitive Programmers (SCP) will be holding elections on Thursday November 8th from 6pm to 8pm. If you are interested in becoming an SCP officer for this coming spring and fall semesters and you are an active member of SCP, please fill out this application: https://goo.gl/forms/FQNuCYTcavipEzW92. We will be closing the application on October 29th at 11:59pm.

You are eligible to run for an officer position only if you will be a USF student (undergraduate or graduate) for the next year (this coming spring and fall semesters). Therefore, if you are graduating in December 2019 or later, then you can run for an officer position.

You are eligible to vote for the new officer board on November 8th if you have attended at least 2 SCP club meetings.

SCP is a student organization on campus devoted to helping interested students train in preparation for computer programming competitions and hackathons through technical workshops and programming sessions.

If you have any questions, please email SCP at usfscp18@gmail.com.

Sincerely,
Sanjeeth Bhat
Secretary, Society of Competitive Programmers
Making the world a safer place is all in a day’s work here.

And so is growing our people. As a member of our team, it’s something you’ll discover firsthand thanks to our world-class career development programs.

CRD seeking SUS students or recent grads for Policy Fellow positions for winter session in DC
Deadline October 26, 2018

As you know, we have hired 32 outstanding SUS students or recent graduates in recent years to work in our full-time Policy Fellow positions here in the firm on Capitol Hill. We are now beginning the search for several new Policy Fellows for the period from January 7, 2019 through May 10. We need your help in getting the word out to any of your students or recent graduates who might be interested in living in Washington and working with us during that time. Ideal candidates will have expressed an interest in advocacy or public policy, preferably with a focus on education, health or science. Fellows are paid at $13.25 per hour.

The duties are varied and range from attending and summarizing hearings and markups, writing articles on legislative developments, arranging and organizing meetings with Congressional offices, preparing Hill Advocacy Day materials, providing general support here in the firm, and many other “duties as assigned” that pop up during the period. This is a great Capitol Hill experience and all our Fellows have gone on to continued success in government, Congress, lobbying, graduate school, the foreign service or media. (Several of our permanent staff here in the firm are former Fellows.)

Students or recent graduates who are interested should send a cover letter, resume, and two short writing samples to David Eaton at DEaton@dc-crd.com. If you have any questions, do not hesitate to contact David or me by email or by phone at 202-484-1100.

The deadline for applications is Friday, October 26, at 11:59 pm EDT.

Application due date: Friday, October 26, by 11:59 pm EDT
Session duration: January 7, 2019 – May 10, 2019
Fellowship location: Capitol Hill, Washington DC, four blocks away from the congressional House offices.
Compensation: $13.25 per hour
Hours: Full time, Monday – Friday, from 9:00 am to 5:00 pm
How to apply: send a cover letter, resume, and two short writing samples to David Eaton at DEaton@dc-crd.com
Carnegie Mellon University Heinz College Paid Summer Fellowships for 2019

Students currently in their junior year of college (from any major) are eligible to apply to two distinct summer fellowships hosted by CMU’s Heinz College:

- **Public Policy and International Affairs (PPIA) Junior Summer Institute**
  
  **Deadline November 1, 2018**

- **IT Lab: Summer Security Intensive (SSI)**
  
  **Deadline February 1, 2019**

Each program is a 7-week in-residence experience and feature:

- Specialized courses taught by CMU faculty: Fellows earn CMU academic credit for coursework (eligible for transfer to home institution)

- $1,000 stipend + the costs of housing, meals, books, supplies, social functions, and travel expenses to and from Pittsburgh

- A scholarship of **at least 50%** of graduate school tuition, if admitted to and enroll in a master’s program at Heinz College.

To learn more, please visit our websites (above) or click on the links below (PDF’s):

- [PPIA](#)
- [IT Lab: SSI](#)

Any questions? Please contact David Eber ([deber@cmu.edu](mailto:deber@cmu.edu)) or 412-268-3347.
Florida Metropolitan Universities Virtual Career Fair
NOVEMBER 1, 2018 | 10:00 am - 4:00 pm Eastern

Who is invited?
- Students & Alumni from UCF, USF & FIU across all Majors & Degrees
- Candidates seeking Full-time, Intern, & Co-op jobs

How does it work?
Review the Recorded Informational Webinar on How the Virtual Fair Works.

Where do I have to go?
- Nowhere, it all happens online!
- Flexible Time Frame: Each organization chooses their own chat times during the event

Top Reasons to participate
- Lower recruiting costs by using our online virtual solution to screen and recruit quality candidates
- Interact in your own chat room with the option to conduct video interviews
- Unlimited access to all registered candidates' information including exporting electronic resumes
- Save time, travel, and staff required to participate in all day, on-site events
- Efficiently involve subject matter experts and other decision-makers in the recruiting process
- Eliminate transportation and overhead costs associated with booth design and production

JnJ TDC Associate Salesforce Developer Position

Caring for the world, one person at a time has inspired and united the people of Johnson & Johnson for over 130 years. We embrace research and science -- bringing innovative ideas, products and services to advance the health and well-being of people. Employees of the Johnson & Johnson Family of Companies work with partners in health care to touch the lives of over a billion people every day, throughout the world.

With $76.5 billion in 2017 sales, Johnson & Johnson is the world’s most comprehensive and broadly based manufacturer of health care products, as well as a provider of related services, for the consumer, pharmaceutical, and medical devices and diagnostics markets. There are more than 250 Johnson & Johnson operating companies employing approximately 125,000 people in 60 countries throughout the world.

Calling all big thinkers and world-changers who want to drive their careers forward across more than 250 leading businesses in consumer, pharmaceuticals and medical technology. If you have the talent and desire to touch the world, Johnson & Johnson has the career opportunities to help make it happen.

The Johnson and Johnson Tampa Development Center (TDC), is currently seeking Associate SFDC Developers to join our team. We develop, design and deliver high quality business applications, software solutions and services to meet J&J business technology requirements. The offices are newly designed, specifically to accommodate Scrum development. It is an open and highly collaborative environment based on LEAN principles with a strong emphasis on continuous integration, automated testing and continuous delivery. Scrum teams are encouraged to be self-organizing and autonomous.

Responsibilities

- Learn modern coding practices: Apex, Visualforce, JavaScript for Lightning.
- Develop and implement new software programs on Salesforce platform.
- Maintain and improve the performance of existing software.
- Produce clean, efficient code based on specifications and best practices.
- Integrate third-party programs with Salesforce.
- Troubleshoot, debug and upgrade existing and new software.
- Continually investigate, recommend and execute on platform improvements.
- Become an expert on Agile methodologies and work in a collaborative, team-based environment.
- Create technical documentation for reference and reporting.

Qualifications

- You should be authorized to work permanently in the U.S. and live in the U.S.
- Cumulative GPA of 3.0 or better is required at time of interview and hire.
- A Bachelors or Master’s degree in Computer Science or related field attained between July 2018 – June 2019 is required.
- Demonstrate and execute basic to strong knowledge of either: Java, JavaScript, JQuery, Node.Js, JSON, XML, SQL, HTML/HTML5, CSS/CSS3/etc.
- Strong analytical skills and problem-solving skills required.
- Must have good planning, organizational and decision-making skills
- Experience in Word, Excel, PowerPoint, SharePoint, and other MS office tools required.
• Strong verbal and written skills.
• Results driven, quick learner, and a self-starter required.

Screening Questions:

1. Due to the United States (inclusive of Puerto Rico) Centers for Medicare and Medicaid Services Open Payments regulation, Johnson and Johnson requires all external candidates to answer the following question: Are you a physician (which may include doctors of medicine and osteopathy, dentists, podiatrists, optometrists, and chiropractors) who has a current license to practice in the U.S., regardless of whether or not you actually practice?
   a. Yes
   b. No

2. Are you legally authorized to work in the United States?
   a. Yes (Required)
   b. No

3. Will you now or in the future require sponsorship for employment visa status (e.g. H1-B status)?
   a. Yes (Required)
   b. No

4. Do you currently possess a cumulative GPA of at least 3.0 (without rounding) which is reflective of all college coursework?
   a. Yes (Required)
   b. No

5. Will you complete your most recent Bachelors and/or Masters degree in either the Fall 2018 or Spring 2019 semesters (degree conferred between August 2018 and June 2019)?
   a. Yes (Required)
   b. No

6. How many years of post-graduate full-time, professional work experience do you have (not including internships and/or co-ops completed while pursuing your degree, or prior military experience)?
   a. None (Required)
   b. One year or less (Required)
   c. More than one year (Disqualifies)

7. Do you have basic to strong knowledge of either: Java, JavaScript, Jquery, Node.Js, JSON, XML, SQL, HTML/HTML5, CSS/CSS3/etc?
   a. Yes (required)
   b. No

8. Do you have experience in Word, Excel, PowerPoint, SharePoint, and other MS office tools?
   a. Yes (Required)
   b. No

9. This position is located in Tampa, FL. Are you able and willing to meet this requirement?
   a. Yes (Required)
   b. No

Please send your resume to ktran24@its.jnj.com
Posting Title: Software Engineer

Johnson & Johnson is currently recruiting for a Software Engineer for our Tampa Development Center. The position is located in Tampa, FL.

Johnson & Johnson, through its operating companies, is the world's most comprehensive and broadly-based manufacturer of health care products, as well as a provider of related services, for the consumer, pharmaceutical, and medical devices and diagnostics markets. We strive to provide scientifically sound, high quality products and services to help heal, cure disease and improve the quality of life.

Thriving on a diverse company culture, celebrating the uniqueness of our employees and committed to inclusion. Proud to be an equal opportunity employer.

This role will operate in a scrum/agile team environment to define and implement solutions across all areas of J&J. This team is responsible for maintaining the highest levels of development practices, working towards continuous improvement of those practices, and maintaining and upgrading implemented systems.

Key Skills:

- Understanding of OOP.
- Understanding of Database concepts
- Excellent communication and interpersonal skills
- Ability to solve problems efficiently and quickly.
- Strong attention to detail and able to solve problems quickly and efficiently
- Desire to work with emerging technologies
- Excellent organizational and time management skills

Duties/Responsibilities:

- Develop and implement new software programs under direction of tech lead.
- Maintain and improve performance of existing software.
- Produce clean, efficient code based on specifications and best practices.
- Troubleshoot, debug and upgrade existing and new software.
- Create technical documentation for reference and reporting.

Qualifications:

- Have a Bachelors degree in Computer Science or related IT discipline.
- Demonstrate and execute basic to strong knowledge of: Java, C++, or C#

QUESTIONS:

1. Do you have a minimum of a Bachelors Degree or will be graduating in 2018? REQUIRED
2. Are you in the Florida area and can work in the Tampa office? REQUIRED

Please send your resume to ktran24@its.jnj.com
