Section Ref No. Semester / Yr Credits Instructor

Proposed statement of work:

Approved: _____
Supervising Professor

Department Approved: _____
Director of Undergraduate Program

This form is to be executed by Computer Engineering, Computer Science, Cybersecurity, and Information Technology students in the Department of Computer Science and Engineering for an Independent Study and who wish to earn credit as CIS 4900. It is expected the supervising professor and student will agree upon the course content and appropriate credit hours in advance of executing this contract. This form authorizes enrollment of the student. Prerequisites are COP 4530 and CDA 3201.

This completed and approved form must be signed by the Supervising Professor and Director of the Undergraduate Program. A student is allowed to count as Departmental elective credit a maximum of six (6) hours of CIS 4900 and/or any other supervised individual study (including CIS 4915 and CIS 4940) for S/U grade.
