

## Information Technology Electives

This document lists some of the courses that can be used to meet the Approved IT Electives requirements for the Information Technology program. This page is current for academic year 2023-24. Note that older catalogs may have different course numbers, different options, and/or different requirements. Check with the Department Undergraduate Advisor concerning possible courses not listed. This list is provided as a guide; the Undergraduate Catalog remains as the definitive source of requirements. *Note that not all of the courses listed below will be offered in any given academic year.*

### Notes:

- 1) These courses are not open to Computer Science or Computer Engineering students.
- 2) Courses in Set #6 electives from other colleges may have limited seats. Please consult with an advisor if you are interested in one of these courses.
- 3) COP 4931 is the designation for special topic course. Unless otherwise stated, the pre-requisite for COP 4931 is COP 4538 Data Structures and Algorithms for IT.
- 4) Students may earn up to 9 credit hours of COP 4900 and/or CIS 4947 credit, no more than 3 credit hours in any one given company for CIS 4947 credit.
