### Request:

Request to take \_\_\_\_\_ during the Fall/Spring/Summer 20\_\_ semester without having met the \_\_\_\_\_ prerequisite. I would like to take the prerequisite course as a co-requisite.

### Reason:

I have spoken with the instructor for the course and they think I have sufficient background to take the course. I have the instructor's permission to take the course if there is space available. I understand that students that meet all course prerequisites will have priority when registering for departmental courses.
